

## SAFETY AND ENVIRONMENTAL POLICY

- The Company has identified safety and the environment as two key areas in the sphere of operations that are of paramount importance and need to be effectively controlled to prevent unnecessary injury, loss of life, damage to health, property and degradation of the environment.
- To meet this requirement, the Company will comply with the IMO's International Safety Management Code (ISM) requirements through its Safety Management System. The SMS is designed to ensure the Company's activities are sufficiently controlled to protect personnel property and the environment from all risks and hazards that can be reasonably anticipated. The company with the establishment of SMS, to the mandatory rules and regulations and will provide to conform to the applicable codes, guidelines and standards by Imo and other Maritime Organisations, Administrations and Classification Societies The Company also recognises that an effective Safety and Environmental protection program will make for a more profitable operation and thereby ensures the welfare of all involved in the business, both at sea and ashore.
- Safety is the concern and duty of all personnel within the company and has no rank however, to be effective a management lead has been provided. To this end, the Management is committed to make all personnel more safety conscious and encourage everyone to become actively involved in identifying possible hazards, implementation of corrective action and constantly monitoring all facets of their working environment to ensure safety conditions prevail.
- An accident is indicative of a failure in the operating system and the Company is committed to fully investigating all accidents or near miss incidents. The results of such investigations and any corrective action will be brought to the attention of all concerned so that everyone can learn from the incident.
- Learning is a never ending journey on the road of excellence and effective training is fundamental to the Company's business and its safety culture. As standards improve, new goals and targets will be set to which all personnel shall strive to attain.
