OBJECTIVE

Piping Draughtsman, Piping Supervisor, Senior Piping Designer,
Piping inspector, Piping commissioning Engineer

EXPERIENCE

Piping Foreman

2021 - 2022

Baker Hughes

- Coordinating the work of other team members such as welders, electricians, scaffolders;
- Supervising and training subordinate staff members and other workers on the job site;
- Scheduling the work crew to ensure they are working efficiently and effectively in their tasks;
- Knowledge of pneumatic and hydraulic control logic;
- Regularly reporting project status to supervisors, site engineers and other officials.

Piping Engineer

Jun, 2020 - Sep, 2021

Azeri Central East (ACE) Topsides Project / BP-Azfen.J.V

- Check overall design is in accordance with E3D Model (PDMS) and project design isometric;
- Isometric Drawing Preparation & Checking;
- Support Design & Fabrication Drawings;
- Piping Material Knowledge;
- Check line list, all codes for painting colour, insulation, P&ID, tracibility, tracing, welding inspection class;
- Develop detailed material plus purchase parameters for piping and fittings;
- Plan, arrange and schedule work activities for piping team
- Identify, evaluate and resolve problems
- Monitor and maintain all aspects of piping system design, efficiently

Piping Supervisor Assistant

2019 - 2020

Trust Project Service (Netherlands)

- Review piping design as per codes and standards, project specification;
- Prepare and review pressure test packages for system-wise completion;
- As per isometric and P&ID drawings line inspection and making punch list;
- Assure that all pipe supports and properly installed of the correct type and material;
- Preparation of inspection reports, line checking, punch lists and all related documents for final acceptance

Piping Supervisor

2018 - 2019

Mats Engineering

- Planning, Execution, Control and Supervision of all activities like Test Pack and Test Equipment;
- Pneumatic, Leak and Hydro Test controlling;
- Confirm all valves are set to the pre-test position shown in the system P&ID limits;
- Check pipeline hangers and supports for any damages and the possibility for movement on sliding supports;
- Reinstall package and submit to pre-commissioning and commissioning activities.

Dimensional Controller

2018 - 2018

Veslesstroy

- Execute dimensional control procedures in the fabrication of pipe so as to ensure that the specified standards are met;
- Implement dimensional control methods and procedures throughout the fabrication and integration process of the modules to meet the requirements of project specifications and codes;
- Review design drawings, do necessary best fit calculations, prepare professional dimensional control reports using AutoCAD and get approval from the clients.

Piping Team Leader

2017 - 2018

Prokon LLC

- Making joint pipes of all sizes;
- Fabrication, erection of piping supports as per drawing and installation of different types and sizes of valves;
- Carrying out final P&ID check of installed piping systems in the module;
- Gasket verification, bolt tightening as per rating, dimension and visual inspection after tightening of bolts;
- Communicate clear instructions to team members.

Piping Team Leader

2015 - 2017

Azfer J.V/ATA Consortium Azerbaijan-Sangachal Terminal

- Develop a strategy that the team members can use to better reach a project's goal;
- Assign tasks to team members;
- As per isometric and P&ID drawing, inspection line and making punch list;
- Prepare field materials requisitions for permanent plant materials which mainly affect punch clearing;
- Complete punch listing of installed pipework and clear any items;
- Perform piping reinstatement check;
- Provide supervision and technical assistance during the execution of piping construction activities at the jobsite.

Sailor Specialised

2009 - 2013

International Seas

Shipping cargo from one port to another

EDUCATION

Construction College under Azerbaijan University of Architecture and construction – Installation and operation of gas supply system and equipment 2022
