**Mechanical Engineer**  
**ATEF Group of Companies LLC**

**(Jan 2020 - May 2022)**  
**Baku, Azerbaijan**

- Development and implementation of scheduled warning repair schedules of equipment.
- Preparation of annual demand for goods, materials, and equipment.
- Repair and operation of hydraulic devices.
- Development of fuel and lubricant consumption norms.
- Operating mechanical equipment.
- Maintenance and safe operation of cranes.
- Operation and repair of pump compressor equipment.
- Operation, installation, and repair of pumps.
- Installation and safe operation of air compressors.
- Rules for proper use of firefighting tools and means.
- Occupational safety and health regulations.
- Environmental protection and industrial sanitation rules.
- Rules of fire protection.
- Ensures uninterrupted, technically correct operation and reliable operation of equipment, keeping them in good condition, at the required level.

**Manager of Mechanical Energy Department**

**(May 2022 – Oct 2022)**

**ATEF Group of Companies LLC**

**Baku, Azerbaijan**

- Carrying out repair works according to the planned maintenance schedules.
- Ensures uninterrupted, technically correct, and reliable operation of equipment, keeping them in good condition, at the required level.
- Development and implementation of scheduled warning repair schedules of equipment.
- Ensure uninterrupted operation of equipment in accordance with HSE and Technical Safety regulations.
- Use of firefighting equipment in compliance with safety regulations.
- Scheduled maintenance and initial repair of CNC lathes, milling, polishing, cutting, and drilling equipment.
- Repair and safe operation of bridge cranes
- Repair and uninterrupted operation of aluminum and copper cable production lines
- Repair of copper and aluminum smelting furnaces, and preparation of a list of spare parts.
- Repair and maintenance of hydraulic, mechanical, and pneumatic presses.
- Repair and safe operation of aluminum pipe production lines.
- Repair of rotating equipment, water pumps, air compressors, and hydraulic pumps.
- Repair and maintenance of heating and cooling systems.
- Reviewing technical documentation to complete equipment maintenance and repair.
- Completing repairs, performing preventative maintenance, and keeping records.
- Working as a team member to ensure jobs and builds were done correctly and on time.
- Reading blueprints, schematics, diagrams, and technical orders to determine the method and sequence of assembly before tasks

- Design, installation and servicing of all types of irrigation systems.
- Design of pipelines and preparation of hydraulic report for irrigation systems.
- Testing of finished pipelines and delivery to the customer.
- Carrying out repair works according to the planned maintenance schedules.
- Ensures uninterrupted, technically correct and reliable operation of the equipment, and maintenance in good condition, maintains the required level.
- Development and implementation of scheduled warning repair schedules of equipment.
- Ensure uninterrupted operation of equipment in accordance with HSE and Technical Safety regulations.
- Repair of rotating equipment, water pumps, air compressors, hydraulic pumps. .
