About Me

Two newbuilding, two Dry Dock experience in last 5 years. One interesting experience during DD in 2015. Have done overhauling of Main Engine (MAN-B&W 6S60MC) all Cylinder Units without turning of crankshaft. Tail shaft was disconnected from Main Engine and not was possibility to turn it by turning gear. All pull out and pull in operation of the piston and pushing rod with stuffing box has been done by using of chain blocks.
