Home address: Calle Catedralico Cristobal Cuevas 5, App 3A, Malaga 29010, Spain

**Objective:** To obtain a challenging position as a Master SDPO, Chief Officer SDPO, SDPO or DPO where I can utilize my extensive experience in ship handling and maneuvering, operating vessels in accordance with international and local rules and regulations, DP operations, subsea operations, inspections, dry dock and shipyard operations, delivery of new build vessels, lifting operations, sea trial operations, crew and passenger transfer, and advising owners can be utilized for the success of the organization.

**Summary:** I am an experienced Master with an unlimited license and over 19 years of seagoing experience on a variety of offshore vessels including PSV, AHTS, Accommodation vessel, MPSV, W2W, Standby vessel, and vessels engaged in maintenance and construction services. I am an expert in providing safe operations and handling of offshore vessels, and maintaining vessels to high international standards. I have a proven track record of explaining the goals and standards to multinational and multi-skilled crews to provide owners and charterers with a safe and quality service. I am skilled in planning and evaluating safety drills and training, and advising owners about all vessel conditions and future inspections to ensure successful passing of class, flag, and other inspections.

### Professional Experience:

#### Chief Officer SDPO – m/v BOS Pool – PSV DP 2 (Britoil), [10 Jun 2024 – 17 Jul 2024]

- Served as Chief Officer on board a DP2 Platform Supply Vessel (PSV) under SNS Pool charterer in the challenging North Sea environment, with the home port based in Den Helder.
- Assumed a pivotal role in Dynamic Positioning (DP) operations, ensuring precise positioning and stability during the supply of various cargoes to both the rig and the vessel.
- Responsible for coordinating and overseeing the efficient and safe supply of different cargo, maintaining a high standard of operational excellence.
- Managed the proper maintenance of the ship's equipment and compartments, implementing preventive measures to guarantee the vessel's reliability and compliance with safety standards.
- Collaborated closely with the crew to execute seamless operations, adhering to SNS Pool's stringent standards and protocols for offshore supply in the North Sea, the Netherlands sector.

#### Mate DPO – fpv Seapiper – Rock dump DP 2 (Boskalis), [27 Mar 2024 – 15 May 2024]

- Served as a Dynamic Positioning Officer (DPO) on a DP2 vessel involved in the installation of armor foundations for wind turbine monopoles through rock dumping operations. All tasks were executed in Dynamic Positioning (DP) mode, operating in close proximity to offshore installations, sometimes as close as 2 meters to the monopole structures.
- I actively participated in vessel mobilizations, pre-project DP trials, and assumed responsibility for ensuring the accurate positioning of the vessel during rock dumping operations, as well as conducting subsequent surveys of the dumping area.

Chief Officer SDPO – m/v Stril Odin – PSV DP 2 (Simon Mokster shipping), [13 Dec 2023 – 22 Jan 2024]

- Served as Chief Officer on board a DP2 Platform Supply Vessel (PSV) under Shell charterer in the challenging North Sea environment, with the home port based in Aberdeen.
- Assumed a pivotal role in Dynamic Positioning (DP) operations, ensuring precise positioning and stability during the supply of various cargoes to both the rig and the vessel.
- Responsible for coordinating and overseeing the efficient and safe supply of different cargo, maintaining a high standard of operational excellence.
- Managed the proper maintenance of the ship's equipment and compartments, implementing preventive measures to guarantee the vessel's reliability and compliance with safety standards.
- Collaborated closely with the crew to execute seamless operations, adhering to Shell's stringent standards and protocols for offshore supply in the North Sea.

SDPO – m/v Atlantic Tonjer – MPSV DP 2, engaged in W2W service, (Atlantic Oceanic UK – ex Castleship management), [07 Jul 2023 – 28 Sep 2023]

- Served as SDPO on board a DP2 Multi-Purpose Support Vessel (MPSV) engaged in Walk-to-Work (W2W) service for offshore wind farms.
- Operated the vessel during operations at the Saint Brieuc wind farm located in the North of France, and Luchterduinen Offshore Wind Farm in the Netherlands. All operations were taken place in DP 2 mode.
- Successfully transitioned the vessel to another location, the Luchterduinen Offshore Wind Farm in the Netherlands, following the completion of the French project.
- The safe transfer of personnel and equipment between the vessel and offshore towers were done by the Z-Bridge system.

DPO – m/v Ocean Zephyr - MPSV modified for Geo-technical Drilling, (Proximity management ApS), [13 Jul 2022 – 13 Oct 2023].

Key Responsibilities:

- Maintained DP watch during drilling operations on depths up to 1200m in North Atlantic (between Shetland islands and Faroe Islands).
- Maintained DP watch during drilling operations during strong current and swell conditions close to the UK shore (vicinity of the Great Yarmouth).
- Maintained navigation watch during sea passage.
- Provided safety familiarization and safety trainings for clients.

References: John P. Mejer [operations@proxi-management.com](mailto:operations@proxi-management.com) +4530242853

### Key Responsibilities:

- Responsible for the safe and efficient operation of the vessel.
- Conducted ship handling and maneuvering with Azimuth propulsion system and Diesel-electric power system.
- Managed DP operations, where the vessel operated 24 hours in DP mode during accommodation service.
- Supervised dry dock and shipyard operations, proceeding in/out dry dock as a Master during annual planned maintenance.
- Conducted sea trial operations before and after shipyard and dry dock.
- Facilitated crew and passenger transfer by helicopter and crew boat, handling up to 6 choppers per day.
- Advised owners about vessel conditions and future inspections to ensure successful passage of class, flag, and other inspections.
- Arranged delivery of all technicians and spare parts on board.

### Achievements:

- Successfully managed the vessel's operations during challenging weather conditions, resulting in zero accidents and incidents.
- Successfully led the vessel's participation in sea trials, ensuring compliance with regulatory requirements and specifications.
- Efficiently managed crew and passenger transfer, resulting in zero safety incidents and a smooth transfer process.

## Skills:

- Expertise in ship handling and maneuvering including CPP, FPP, Diesel-electric Azimuth
- Skilled in operating vessels in accordance with international and local rules and regulations
- Expertise in DP operations with over 4000 recorded DP hours
- Skilled in subsea operations (geotechnical drilling by PROD)
- Expertise in different kinds of inspections including Class (ABS, GL, B.Veritas), PSC, US Coast Guard, Internal / External ISM & ISPS Audits, OVID inspection, ARAMCO on-hire inspection etc.)
- Dry dock and shipyard operations
- Different kind of PPM systems
- Delivery of new build vessels to owner / charterer (from China to Saudi Arabia)
- Drills / trainings (ISM & ISPS), safety meetings
- ECDIS
- JSA, RA, WP systems
- Safety / Security Officer
- crew and passenger transfer (crew boats and helicopter operations)
- Lifting operations
- Microsoft Office and graphic software

## Education:

- Master Degree in Marine science and marine operations, Odessa National Maritime Academy, 2011
  - Master Degree in radio and electronic equipment, Odessa National Maritime Academy, 2008
