To whom it may concern,

I am writing to express my interest in Master position. I'm experienced Master promoted in 2005. I was employed 10 years on oil tankers. 2 years ashore in Teekay Office in Singapore as HSEQ manager and then almost 5 years on LNG carriers.

Since times are changing lately, I'm looking into changes and new challenges in my career. I believe I could be a valuable asset for new employer due to my exceptional experience on board as well as ashore. I got opportunity to sail (4 x 3 months) on MEGI engine LNG carrier built as a first in the world. Obviously, since she is a pioneer vessel there was many design and technical problems which we had to solve. I gain vast experience in risk management while working on board of miscellaneous vessels as well ashore while I was working in HSEQ department. The experience gained lately on the turbine vessel with MOSS cargo containment system brought huge value in my knowledge and experience as LNG Master.

I'm appropriately certified and I had opportunity to carry out full process of several incident investigations. I have vast experience in SIRE inspection vetting process. I'm very well familiar with latest version of VIQ 7, since I was directly involved in preparations for SIRE inspection. I had opportunity to participate in Office TMSA audits conducted by Chevron, Exxon, Statoil, BP and others. I was leading the team adopting requirements of TMSA 3. I'm certified auditor of ISO 9001, ISO 14001, ISO 45001, OHSAS 18001 and I had carried out miscellaneous audits ashore and on board. I'm also well familiar with emergency procedures since I had opportunity to participate in ERT (Emergency Response Team) during miscellaneous emergencies. Bahamas legislations are well known to me as well Class miscellaneous requirements.

I believe that my experience and skills make me a uniquely qualified and useful candidate for Master position. I would be a great fit for The Company, and I would appreciate the opportunity to meet you for an interview, if you'd considered me. Thank you for your time and

consideration of my application and I am looking forward to hearing back from you.

Your Sincerely,

Capt. Marek Beim
