## Education

- **Bandari Maritime Academy 2022**

Standards of Training Certification and Watchkeeping

- **Kenya Coast National Polytechnic 2019 – 2021**

Certificate in Marine Engineering

- **Ukunda Youth Polytechnic 2017-2018**

Certificate in Information

Communication Technology

- **Dr. Babla Secondary School (2013-2016)**

Kenya Certificate of Secondary Education

## SKILLS

### Hard Skills:

- Preventive Maintenance
- Engine-room Watchkeeping
- Intermediary skills in use of lathe and drilling machine
- Overhaul of the engine machineries
- Cleaning and maintaining the engine room
- Equipment Handling
- 

### Soft Skills:

- Leadership
- Microsoft office
- Team Collaboration
- Problem Solving
- Time Management
- Attention to Detail

## Language

English

# SUFIANI ABUBAKAR MWASHUNDI

Dedicated and detail-oriented Marine Engineering trainee with almost 2 years of experience in maintaining high standards of engine room operations and safety in the maritime industry. Demonstrated expertise in leadership as the head of the other trainees, main and auxiliary engines preventive maintenance, workshop practices like use of lathe, milling and drilling machine. Participation in minor & major repairs and watch-keeping in the engine room. Proven ability to improve operational efficiency, adhering to the rules and regulations of the company and instructions from my supervisors. Enthusiastic about contributing to a professional team with strong leadership, active listening, and problem-solving skills.

## Experience

### July 2023 – to date

Kenya Ports Authority

#### Cadet Trainee (Volunteer)

- Working onboard Tug boats, workshops and Marine Stores
- Engine Overhaul, Maintenance and repairs and Watchkeeping
- Valve seat grinding, removal and replacement of piston rings.
- Servicing of the engine and preventive maintenance.
- Performed simple operations on lathe and drilling machine
- Participating in safety drills, trainings and health awareness workshops.
- Preparing main propulsion engines for starting, servicing compressors and pumps
- Bunkering of fuel and water while keeping logs.

### Dec 2022 -July 2023

Kenya Fisheries Services (FV JONAS)

#### Oiler

- Engine Room Watch-keeping
- Starting of the Main Engine
- Operating pumps
- Assisting in winch operations
- Performing preventive maintenance
- Assisting in repairs and servicing

### July 2022 – Dec 2022

Kenya Ports Authority

#### Engineering Cadet Trainee (Intern)

- Engine Overhaul, Maintenance and repairs and Watchkeeping
- Attended a refrigeration training.
- Servicing of the engine and preventive maintenance.
- Performed simple operations on lathe and drilling machine
- Exposure in fabrication work like marking plates and oxyacetylene gas cutting and electro-welding
- Preparing main propulsion engines for starting, servicing compressors and pumps
- Bunkering of fuel and water while keeping logs.

### Feb 2022 – 30 April 2022

African Marine and General Engineering Company LTD (Dry Dock)

#### Engineering Trainee (Industrial Attachment)

- Performed simple operations on lathe and drilling machine
- Engine overhauling, servicing and maintenance
- Service of generators, engine compressors and pumps
- Lathe, turning, drilling, and thread cutting machine works
- Tail shaft engine alignment and propeller balancing and polishing
- Painting processes, brush, spray, high pressure wash.
