PROFILE.

A proactive, focused and totally committed professional, with extensive expertise gained within the Marine and blue economy sector, with the ability to solve daily activities according to the service plan. An accomplished organizer, leader, capable of introducing and integrating innovative strategies, streamlining resources to maximize performance and quality standards to ensure the ongoing provision of the highest standards in the industry. A well-presented, confident and articulate communicator and negotiator at all levels, who commands respect and credibility through the projection of a professional image.

Flexible, open minded; a natural team leader and player with excellent communication skills at all levels, with proven ability to work under pressure in any situation. Experienced in managing operations with the minimal supervision from head office.

Qualities.

- Adaptable
- Confident
- Disciplined
- Flexible
- Reliable
- Responsible

Key Skills.

Effective Communication. I have effective communication skills demonstrates the ability to clearly express ideas and information verbally or in writing in ways others can understand

Active listening. I am an Active listener to listen to others with the intent to understand and without being distracted by external or internal factors.

Positive Language. Communicating with positive language includes explaining to customers what you are able to do for them.

Problem-solving. I have the ability to find solutions that are mutually agreeable for the customer and the establishment.

Patience. I have support and engagement with customers by providing each customer with the same level of service and attention.

Resilience. I have the ability to provide quality service without internalizing the problems or attitudes of other people or being negatively affected by difficult situations

Objectives

A dedicated Marine engineer seeking an opportunity in an Organization where my experience and skills in offering quality service can be fully maximized.
