GMDSS General Operator *Panama Maritime Authority*

RELEVANT EXPERIENCE

THIRD OFFICER – Cruise Ship - Carnival Cruise Line - M/S Carnival Valor, 290m and 110,438 GT, Panama flag **October 2023 – May 2024 (7 months)**

- Managed and executed navigational watches, ensuring safe and efficient vessel operations on the Carnival Valor.
- Oversaw navigation systems, including radar, GPS, and other bridge equipment, maintaining accurate course and positioning.
- Monitored weather conditions and environmental factors, adjusting course and speed to ensure safe navigation.
- Collaborated with senior officers, supporting the Second Officer and Captain in bridge operations and emergency procedures.

THIRD OFFICER – LPG Carrier - Transgas - LPG/C Daniel B, 100m and 4,224 GT, Panama flag **October 2022 – May 2023 (7 months)**

- Supervised cargo operations, including loading and unloading of LPG, ensuring adherence to safety protocols and regulatory compliance.
- Managed gas monitoring systems and conducted regular checks to prevent leaks and ensure safe handling of LPG.
- Oversaw navigational operations, including the use of radar and GPS, to maintain precise course and positioning during cargo operations.
- Coordinated with the engineering team to maintain and troubleshoot both LPG cargo handling systems and navigational equipment, ensuring safe and efficient vessel operations.

THIRD OFFICER – LPG Carrier - Transgas - LPG/C Taurogas, 100m and 3,096 GT, Panama **March 2022 – September 2022 (6 months)**

- Supervised Cargo Operations: Coordinated loading and unloading operations of LPG, ensuring adherence to safety protocols and international regulations for handling hazardous cargo.
- Monitored and Maintained Gas Systems: Managed gas monitoring systems, performing regular checks to prevent leaks and ensure safe handling of LPG, complying with onboard safety standards.
- Updated and Maintained Navigational Records: Prepared and maintained navigational records and charts, ensuring accuracy and regulatory compliance for safe and efficient navigation.
- Coordinated and Executed Mooring Operations: Oversaw and executed mooring operations during cargo handling, including the management of lines and anchors to ensure secure and safe vessel positioning in port.

DECK CADET LPG Carrier - Geogas - LPG/C Champlain, 225m and 47,791 GT, French flag **February 2021 – July 2021 (6 months)**

- Supported Deck Operations: Assisted with various deck operations and navigational tasks, gaining practical experience in maritime activities and supporting deck officers in daily navigational duties.
- Operated and Monitored Navigation Systems: Aided in operating navigation systems, including radar and GPS, to ensure accurate course and positioning, and participated in the preparation and maintenance of navigational charts and logs.
- Observed Weather and Environmental Conditions: Recorded and analyzed weather conditions and environmental factors, assisting in making necessary route adjustments for safe and efficient navigation.
- Participated in Deck Maintenance and Equipment Checks: Engaged in routine deck maintenance and equipment inspections, ensuring all equipment was functioning properly and addressing any issues that arose, while contributing to bridge operations and emergency procedures.

DECK CADET – Navy Vessel - Colombian Navy - ARC Providencia, 85m and 1,158 GT, Colombian flag **June 2019 – August 2019 (2 months)**

- Supported Hydrographic Surveys: Contributed to hydrographic survey operations, including the use of echo sounders for seabed measurements and charting, ensuring accurate data collection and analysis.
- Participated in Deck Maintenance and Equipment Inspections: Engaged in routine deck maintenance and inspections, ensuring all equipment was in proper working order and addressing any issues promptly.
- Gained Insight into Bridge Operations and Emergency Procedures: Collaborated closely with senior officers and the Captain, gaining valuable insights into bridge operations, emergency response procedures, and contributing to the overall safety and efficiency of the vessel.
- Participated in Safety Drills and Emergency Exercises: Took part in safety drills and emergency exercises, enhancing crew readiness and safety, and contributing to effective emergency response and preparedness.

DECK CADET – Tugboat - Intertug - Tug Capidahl, 30m and 455 GT, Colombian flag **May 2019 – June 2019 (1 month)**

- Assisted in Mooring and Unmooring Operations: Played a key role in assisting with mooring and unmooring operations, ensuring safe and efficient handling of lines and support for vessels during these critical maneuvers.
- Operated and Monitored Navigation Systems: Assisted in operating and monitoring navigation systems to maintain accurate positioning and course and contributed to the preparation and upkeep of navigational records and charts.
- Conducted Weather and Environmental Assessments: Helped assess weather conditions and other environmental factors, supporting adjustments to the tugboat's operations to ensure safety and operational efficiency.
- Participated in Equipment Maintenance and Inspections: Engaged in routine maintenance and inspections of deck equipment, ensuring proper functionality, and addressing any technical issues promptly.
