Notes					
<p>Greetings, I am writing to express my interest in the ETO position at your good company. In my current position as ETO at Maran Gas Company, I have developed strong electrical and technical skills for working on board LNG/C with Electric Propulsion (TFDE). In the past I also have extensive experience working on ships with an electronically controlled main engine as well. During my time at Maran Gas, I played a key role in troubleshooting and resolving a critical issue with the vessel's electrical propulsion system, minimizing downtime and ensuring smooth operations. My ability to quickly adapt to new systems and my eagerness to stay updated with the latest industry technologies make me a strong fit for this role I am particularly drawn to this opportunity because I want to have a contract duration of 3 month on/off and gain hands-on experience with advanced maritime technologies and systems is particularly compelling, as it aligns with my career development goals in the maritime industry. I am excited about the possibility of contributing to your team and leveraging my skills to help achieve your goals. I have attached my resume for your review, and I would welcome the opportunity to discuss how my background and skills can contribute to the continued success. I am available at your convenience for an interview and can be reached at +34697747959, +380972470766 or via email at iashchukvitalii@gmail.com</p>
