## About me

My professional portfolio includes initial work experience as a trainee motorman and I am well aware of the difficulties associated with this field. Despite this, I have a strong interest in working as a seafarer and am eager to develop professionally in this field.

I am a person of tranquility, and I possess the skill of building relationships with a diverse range of individuals, which is a valuable asset for collaborative efforts. Furthermore, I maintain a healthy lifestyle and engage in regular physical activity, which contributes to my peak performance and physical well-being. I am proficient in both Russian and Azerbaijani, and I am actively pursuing the study of foreign languages to enhance my expertise in my chosen field.
