This evaluation is designed to measure an employee's actual job performance against the standards of the assignment, rather than against the performance of others who have done and/or doing similar work.

**Rating score scale**

| Does not meet expectations | Partially meet expectations | Solid performer | Exceed expectations | Significantly exceed expectations |
|----------------------------|-----------------------------|-----------------|---------------------|-----------------------------------|
| 1.00 - 1.80                | 1.81 - 2.60                 | 2.61 - 3.40     | 3.41 - 4.20         | 4.21 - 5.00                       |

- This review, expected to be conducted by the respective Supervisor, with an oversight and assistance of the Master. An Employee should be evaluated in each rotation by the respective Supervisor on board/office, as applicable, for each Rank.

- This rating score might also be considered as a basis data for the Mid-Year & Annual performance evaluation appraisal process.

- Tangible justification with Supporting documents to be attached, if the Total Score is "greater than 3.40" and "less than 1.81".
