## SUMMARY

---

Electrical Engineer / Marine Electrician / ETO with 12+ years of experience in electrical systems, including shore-based and shipyard roles. Holds a B.Eng. in Electrical/Electronic Engineering and certifications in ETO, vibration analysis, explosion-proof installations (ATEX), dynamic positioning maintenance, and Kongsberg automation systems. Experienced in working with multinational teams across varied environments. Skilled in installation, maintenance, and repair of electrical systems.

---

## SKILLS

---

- |                          |                             |
|--------------------------|-----------------------------|
| • Electrical Maintenance | • Ex-proof (ATEX) Certified |
| • DP Systems Management  | • Troubleshooting           |
| • Automation Systems     | • Safety Compliance         |
| • Power Distribution     | • Electrical Safety         |
| • Nav/Comm Systems       | • High/Low Voltage Systems  |
| • Preventive Maintenance | • Team Collaboration        |
- 

## WORK EXPERIENCE

---

<b>Electro Technical Officer (ETO)/Electronic Technic</b> <b>PACIFIC LEGEND (DP2, PSV)</b>	<b>03/2023 to Current</b>
---	---------------------------

- Maintain and repair electrical and electronic systems onboard Dynamic Positioning (DP2) Platform Supply Vessel (PSV).
- Conduct routine inspections, diagnostics, and maintenance of power generation, distribution, and automation systems.
- Monitor and ensure optimal performance of vessel communication, navigation, and DP control systems.

<b>Electro Technical Officer (ETO)/Marine Electrician</b> <b>Pan Marine</b>	<b>01/2023 to 02/2023</b>
--	---------------------------

- Developed and implemented preventive maintenance programs to minimize downtime and enhance the reliability of electrical systems.
- Prepared and maintained accurate technical documentation, including maintenance logs, inspection reports, and safety compliance records.
- Provided technical training and support to crew members on electrical safety protocols and equipment usage, fostering a culture of safety onboard.

<b>Electronic Service Technician</b> <b>Halliburton Atlantic Limited</b>	<b>06/2022 to 11/2022</b>
---	---------------------------

- Conducted inspections and diagnostics on drilling and completion tools, ensuring compliance with industry standards and safety protocols.
- Collaborated with engineering teams to implement modifications and upgrades to electronic systems for improved efficiency and performance.
- Managed inventory of electronic components and tools, ensuring availability for timely repairs and maintenance tasks.

<b>Electro Technical Officer (ETO)/Marine Electrician Apprentice</b> <b>Hydrodive Nig Ltd</b>	<b>01/2022 to 05/2022</b>
--	---------------------------

- Executed installation, maintenance, and repair of electrical systems and equipment on marine vessels, ensuring compliance with industry standards.
- Conducted regular inspections and troubleshooting of electrical and electronic systems, including power distribution, lighting, and communication equipment.

- Managed the operation of underwater equipment and remotely operated vehicles (ROVs), ensuring optimal functionality during underwater operations.

**Electro Technical Officer (ETO)/Marine Electrician**

**08/2021 to 12/2021**

**Bourbon Interoil Nig Ltd**

- Managed the installation, maintenance, and repair of electrical and electronic systems aboard marine vessels, ensuring operational efficiency and compliance with industry standards.
- Conducted routine inspections and diagnostics of power generation, distribution systems, and auxiliary machinery to prevent downtime and ensure reliability.
- Monitored and maintained dynamic positioning systems, navigation equipment, and communication systems to support safe vessel operations.

**Electro Technical Officer (ETO)/Marine Electrician**

**12/2015 to 01/2021**

**Worldwide Gas Ltd (LNG VESSEL)**

- Led the maintenance and repair of electrical systems and equipment on board the LNG vessel, ensuring compliance with international safety standards.
- Conducted troubleshooting and diagnostics of electrical and electronic systems, including power generation, distribution, and control systems.
- Managed the operation and maintenance of LNG cargo handling systems and auxiliary machinery, optimizing performance and reliability.

**Electro Technical Officer (ETO)/Marine Electrician**

**07/2020 to 12/2020**

**West African Ventures (WAV) Ltd**

- Managed the installation, maintenance, and repair of electrical and electronic systems on board vessels, ensuring compliance with industry standards and regulations.
- Conducted routine inspections and troubleshooting of power generation, distribution systems, and marine automation systems to enhance operational efficiency.
- Operated and maintained dynamic positioning (DP) systems, navigation equipment, and communication systems, ensuring seamless vessel operations.

**ETO / Marine Electrician/ Shipyard Electrician**

**01/2013 to 11/2015**

**Remontova shipyard, Gdansk**

- Executed the installation, maintenance, and repair of electrical systems and equipment in shipbuilding and repair projects.
- Conducted thorough inspections and diagnostics of electrical systems, ensuring compliance with industry standards and safety regulations.
- Collaborated with engineering teams to troubleshoot and resolve electrical faults in machinery, control systems, and safety equipment.

**Marine Electrician /SERVICE ENGINEER**

**01/2013 to 12/2013**

**Remontova shipyard, Gdansk, Poland (LNG VESSEL)**

- Ensured the proper functioning of navigation, communication, and safety systems through routine testing and maintenance procedures.
- Prepared detailed reports and documentation of maintenance activities, ensuring accurate records for regulatory compliance and operational efficiency.
- Provided technical support and training to shipyard personnel and crew on electrical safety practices and system operations.

---

**EDUCATION**

---

**Diploma in Marine Engineering : Marine Engineering**

**11/2015**

University Gdynia, Poland

**Bachelors of Engineering B.ENG: Electrical Electronics Engineering**

**11/2010**

University of Benin Benin City, Nigeria
