Reading

Research

Meditation

PROFILE

Graduated with **Engineer Officer in charge of watch** or Bachelor's Degree in Electromechanical and with my previous experiences; i am looking for job of Mechanical Engineering in maritime field or industrial field. Thank you for contacting me.

EDUCATION

Engineer Officer in charge of watch / Bachelor's degree in Electromechanical

ARSTM (Regional Academy of Maritime Sciences and Technologies) , Abidjan

- Theoretical and practical studies of 2-stroke and 4-stroke diesel engines

- Training on the operation of boilers and turbines

- Theoretical studies of compressors, coolers and thrusters

- Training on industrial design and plan reading in Mechanics

- General information on parts manufacturing and shipbuilding

- Training in Electrical Engineering and Power Electronics

- Training in metal technologies and manufacturing .

Sep 2010 -

Aug 2013

F3 Baccalaureate (Electrotechnicals)

Sep 2009 - Jul 2010

Technical School of Abidjan, Abidjan

-Training in Industrial Electricity

-Learning electrical wiring and reading electrical diagrams

-training on test measurements and automation

-Studies on electric coil, transformers, asynchronous motors, synchronous motors

Certificate of Secondary School

Sep 2006 - Jun 2007

Modern College in Abidjan, Abidjan

EMPLOYMENT

Offshore Motorman

Jan 2024 – Avril 2024

Vantage Drilling International/ICM Holding , Abidjan

° Maintenance of centrifugal pumps and volumetric pumps

° Control of cooling temperature, pressure and oil level , temperature in Engine room

° Repairs and maintenance of diesel engines parts

° Control of air production system temperature and pressure level in compressor room

° Monitoring of HPU pressure, Fire pump pressure and Water maker pressure

° Replacement of filters and sealing system (gasket, seal, ring)

° Control of fuel level in service tank and settling tank in Engine room

° Watch keeping of bilge level and tripping of dirty water

° Housekeeping of Engine room, Compressor room and Fan room

Offshore Motorman

Jan 2023 - jun 2023

SAIPEM/ICM Holding , Abidjan

- Troubleshooting of cooling system, pump, diesel engine and compressors

- Control of air production system temperature and pressure level in compressor room

- Control of cooling temperature, pressure and oil level , temperature in Engine room

- Lubrication and cleaning of bearings and other mechanicals system

- Repairs and maintenance of diesel engines parts

- Housekeeping of Engine room, Compressor room and Fan room

Extracurricular activities

Marine Surveyor

MARINE SURVEY IN AFRICA/ EB Service International , Abidjan
Jun 2022 - Dec 2022
- Pre-purchase survey
-Bunkering: sounding of the quantities of Fuel Oil and Diesel Oil remaining after chartering vessels
-Faculty expertise: inspection of packages at unloading and control of moorings

Marine Mechanical Technician (in board and out board)

Mai 2018

CARENA/Ship Repair, Abidjan

- Apr 2022

* Assistance of specialist technicians for all work of:

- ✓ Troubleshooting of diesel engine , compressors, cooling system and pump
- ✓ Disassembly and reassembly of diesel 2-stroke and 4-stroke engines for revision
- ✓ Repairs and maintenance of diesel engines parts
- ✓ Repairs and revision of turbofan blower, speed reductor and propulsion system
- ✓ Repairs and maintenance of box cooler , boilers, turbines and valves
- ✓ Maintenance of hydraulics winches and installing of hydraulic pumps
- ✓ Manufactured of gasket and mechanic part etc...

Mechanic Engineer Cadet China Harbour Engineering Company; Chec 54, Abidjan

* assistance of chief engineer for all operation of :

Mar 2016 –

fevr 2017

- Maintenance of diesel 4 stroke engine
- Troubleshooting of diesel engine , compressors, cooling system and pumps
- Dismantling and cleaning of engine parts to repair
- Watching of engine speed and fuel level
- Manufactured of mechanics parts and repairs of fuel ignite pump
- Cleaning of rusty from ship and mechanics parts .

Electrician trainee SISTB (Wood Manufacturing Society), Divo

Mai 2017 –

Nov 2017

* Wiring of electrical engines according different kinds of engine starting:

- Start star triangle
- direct start
- Rotor start -kick start -stator start
- Test of electrical equipment: power contactor, rifle, thermal relay
- Measurement of: voltage, intensity, resistance.
- Control and test of electrical engines.
- Maintenance of electrical engines and installation.

Mechanical technician Trainee SIR: Ivoirian Oil and Gas Refining Society, Abidjan

- * Repair and installing of centrifugal pumps and volumetric pumps
- * Watch and maintenance of boiler
- * Repair of turbines and monitoring of speed regulator system
- * Repair and maintenance of compressors
- * Manufactured of mechanical part
- * Assistance of electrician to wiring and repair electrical engine
- * Assistance of electrical engine in pump alignment.
