2017  
Diploma In Marine Engineering

# WAN AZMEER AZIZUL ABDULLAH RAJ

## > SUMMARY

Detail-oriented and proactive Fourth Engineer with a solid background in marine engineering and a demonstrated track record of ensuring smooth operations and maximizing efficiency. Equipped with hands-on experience in conducting preventive maintenance, troubleshooting engine issues, and fostering a cooperative work environment. Proficient in promoting safety protocols and emergency preparedness while enhancing crew proficiency through effective training initiatives. Committed to adhering to manufacturers' maintenance schedules to optimize equipment longevity and performance. Seeking an opportunity to leverage skills and expertise in a dynamic marine engineering role to contribute to the success of vessel operations and ensure adherence to industry best practices

## > WORK EXPERIENCE

### Oiler

Jul 2019 - Present

Eaglestar Pte Ltd, Kuala Lumpur

- **Fostering a Cooperative Work Environment:** By maintaining a positive attitude and providing assistance to colleagues, bolstered crew morale, fostering a harmonious and productive team dynamic.
- **Ensuring Smooth Operation through Maintenance:** Conducting regular engine maintenance and troubleshooting ensured the smooth operation of the vessel. Timely identification and resolution of potential issues minimized breakdowns, thereby preventing disruptions to operations.
- **Promoting Safety and Emergency Preparedness:** Actively participating in drills and supporting timely repairs of malfunctions minimized downtime and ensured smooth sailing operations.
- **Improving Crew Proficiency:** By providing hands-on training on marine engineering principles and practices, increased crew proficiency, enhancing overall competence and readiness. This facilitated a more effective and efficient team.
- **Maximizing Engine Efficiency:** Implementing a proactive maintenance schedule, including timely oil changes and system calibrations, maximized engine efficiency.

### Greaser

Jan 2018 - Apr 2019

Jabatan Laut Malaysia, Port Klang, Selangor

- **Supported Preventive Maintenance Initiatives:** Completed assigned tasks in a timely manner to support preventive maintenance efforts, thereby reducing the likelihood of costly breakdowns and minimizing downtime.
- **Increased Productivity:** Effectively prioritized tasks based on urgency and importance, resulting in improved productivity and smoother workflow management within the maintenance team.
- **Streamlined Workflow:** Maintained a clean and organized workspace, ensuring that tools and equipment were readily available when needed.
- **Enhanced Equipment Longevity:** Diligently adhered to manufacturers' recommended maintenance schedules, contributing to the longevity and optimal performance of equipment and machinery.
- **Promoted Positive Work Environment:** Actively participated in team meetings and offered insights into best practices for grease application techniques.

---

Dear Hiring Manager,

I am writing to express my interest in the Fourth Engineer position at your company as advertised. With a solid background in marine engineering and a proven track record of ensuring smooth operations and maximizing efficiency, I am confident in my ability to contribute effectively to your team.

Throughout my career, I have developed a comprehensive skill set in marine engineering, including expertise in conducting preventive maintenance, troubleshooting engine issues, and fostering a cooperative work environment. My hands-on experience has equipped me with the ability to identify and resolve potential issues proactively, minimizing downtime and ensuring the smooth operation of vessel machinery and systems.

One of my key strengths is my commitment to promoting safety protocols and emergency preparedness. I have actively participated in drills and supported timely repairs to minimize disruptions to operations and maintain a safe working environment for crew members. Additionally, I have a proven track record of enhancing crew proficiency through effective training initiatives, contributing to overall operational effectiveness.

I am particularly drawn to the opportunity to leverage my skills and expertise in a dynamic marine engineering role at your company, I am eager to contribute to the success of vessel operations and ensure adherence to industry best practices. I am committed to adhering to manufacturers' maintenance schedules to optimize equipment longevity and performance.

Thank you for considering my application. I am excited about the opportunity to further discuss how my background, skills, and enthusiasm can contribute to the continued success of your company. I look forward to the possibility of joining your team and contributing to its ongoing success.

Warm regards,

WAN AZMEER AZIZUL ABDULLAH RAJ
