### Notes

My professional carier as Bridge Officer has started on research vessels engaged in oceanographic and geological researches all around the world. From 2001 to 2006 I've worked on research vessels performing expedition trips with passengers to Antarctica, Greenland, High Arctic Canada, Svalbard, Iceland. From these trips I have good experience in ice navigation. In 2006 I've started my carrier in seismic industry where I'm till now. Being working on Shipman, Norfield Offshore, Vestland Offshore and Sanco Shipping vessels conducting jobs for most of seismic companies such as PGS, Magseis Fairfield, TGS, SAExplorations. Promouted to Captain in 2012 during CGG project in USA. I am experienced

Captain for multistreamer towing vessels as well as source vessels for OBN seismic. I'm looking for new challenges and have got Full DP certificate. Ready to join any vessel to continue my DP experience. I'm available for employment from December 2024.
