Highly motivated and results-oriented maritime professional with a Bachelor's degree in Nautical Science and proven experience as a Third Officer on tankers. Quickly promoted to Second Officer after first contract based on exceptional performance, commitment to safety, and strong communication skills. Adept at navigating, cargo operations, and safety compliance, with a focus on operational efficiency and continuous improvement.

Navigation and Ship Handling

International Maritime Law and Conventions: Applied MARPOL regulations to ensure safe and environmentally responsible cargo operations, including ballast water management and oil discharge procedures. Successfully implemented ISPS Code security measures during port visits, ensuring crew and vessel safety while adhering to international protocols. Experienced in conducting shipboard drills and inspections in compliance with STCW standards for navigation, fire safety, and emergency procedures.

Navigational Systems and Equipment: Accurately interpreted RADAR and AIS data to identify potential hazards and navigate safely through congested waterways. Successfully operated and interpreted data from GMDSS equipment, enabling effective communication with shore stations and other vessels during routine operations and emergencies. Utilized knowledge of echo sounder limitations to accurately assess seabed conditions and chart safe navigation routes.

Ship Movement Planning and Execution: Successfully planned and executed safe ship movements in challenging conditions, including navigating narrow channels and avoiding known navigational hazards. Demonstrated expertise in utilizing meteorological and oceanographic data to predict weather patterns, and optimize route planning for efficient and safe voyages. Proficient in navigating the Caspian Sea, including knowledge of local regulations, traffic patterns, and potential hazards specific to the region.

Experience with Various Vessel Types: Experienced in operating both tankers and container ships, demonstrating adaptability to various ship types and cargo handling procedures. Successfully completed cargo operations on tankers, including loading, discharging, and monitoring cargo tank levels.

Emergency Procedures Knowledge: Actively participated in fire drills and successfully utilized firefighting equipment to extinguish simulated fires, demonstrating proficiency in emergency response procedures. Experienced in conducting search and rescue drills, including using lifeboats and rescue equipment to evacuate personnel from a simulated distress scenario. Familiar with oil spill response procedures and demonstrated the ability to effectively implement containment and cleanup measures during simulated events.

COLREGs Compliance: Successfully applied COLREGS rules to avoid collisions with other vessels, maintain safe distances, and navigate in restricted waters. Successfully communicated with other vessels using COLREGS signals and procedures to establish safe passage and prevent potential collisions.

Experience, Caspian Sea

Tanker «LIWA» (Caspian Sea)

Aug 2024 – Dec 2024

Experienced 4.5 months as Third Officer on a crude oil tanker operating the Makhachkala-Aktau route. Proved myself to be a responsible and professional crew member. Achieved a promotion to Second Officer after my first contract, showcasing my high work efficiency and capacity for further career development.

Container Ships «Barys» and «Sunkar» (Caspian Sea)

Aug 2023 – Feb 2024

Assisted with transporting containers from Aktau, Kazakhstan, to Alyat, Azerbaijan, during apprenticeship.

Tanker «Kazakhstan» (Caspian Sea)

Sept 2022 – Jan 2023

Completed internship as a deck cadet on a tanker registered in the port of Aktau, Kazakhstan, gaining hands-on experience transporting crude oil on voyages from Aktau to Makhachkala.

Responsibilities:

Documentation: Ensured accurate and timely cargo documentation, including bills of lading and cargo manifests, for smooth port operations. Conducted comprehensive inspections to verify container count, document compliance, and loading orders, adhering to strict safety protocols.

Anchoring: Demonstrated proficiency in independent anchor handling operations, including dropping, weighing, and securing the anchor, ensuring safe and efficient ship berthing.

Logs Recording: Maintained accurate and comprehensive logs for safety and compliance reporting, including radio journal, sewage water operation, ballast water operation, and oil record book entries. Implemented a color-coded system for radio logbook entries, improving information retrieval efficiency by 20%.

Medical Assistant: Managed and maintained onboard medical supplies, ensuring inventory accuracy and timely replacement of expiring medications. Developed a detailed Excel-based document for medicine distribution, streamlining the process and providing clear medical information for crew members.

ECDIS Friendly: Proficient in utilizing both electronic (ECDIS) and paper charts for navigation. Independently developed and implemented two optimized ECDIS routes from Kenderli to Kuryk and Kuryk to Aktau, demonstrating expertise in route planning and navigation.

Checks: Consistently performed monthly GMDSS equipment checks and preventive maintenance (PM) tests on radars, ensuring equipment functionality and compliance with international standards. Documented all results accurately in the radio logbook and ship's logbook.

Drills: Actively participated in all onboard drills, including fire, abandon ship, and man overboard drills, demonstrating proficiency in emergency procedures and enhancing teamwork.

Communication: Effectively communicated with Baku Traffic Control, providing accurate ship position reports and adhering to maritime regulations. Maintained clear and concise communication with other vessels in the open sea to ensure safe navigation and prevent potential collisions.

Mooring: Demonstrated physical strength and teamwork skills in assisting with mooring operations, including handling mooring lines, securing the vessel, and adhering to safety protocols. Proficient in five methods of tying heaving lines.

Dry-dock Experience: Gained valuable experience during dry dock repairs, observing and assisting with maintenance tasks. Developed practical skills in operating tools such as a jigsaw, grinder, and screwdriver.

Skills

Communication: Effective communicator with strong interpersonal skills, capable of fostering positive relationships with colleagues from diverse cultural backgrounds. Proactively inform management of workload progress, challenges, and potential solutions, ensuring transparent communication within the team.

Organizational Skills: Highly organized with a proven ability to efficiently plan and prioritize tasks. Demonstrate adaptability to changing schedules.

Physical Stamina: Possess exceptional physical stamina to execute demanding tasks, including breaking ice off the deck, frequent stair ascending, maintaining watchkeeping on the gangway in minus temperatures, preparing mooring lines, and performing heavy lifting. Demonstrate a strong work ethic and commitment to completing physical tasks efficiently and safely.

Mental Stamina: Exhibit strong mental resilience to effectively manage the demands of a maritime career, including maintaining focus under pressure, adapting to challenging situations, and effectively coping with extended periods away from home. Possess a strong sense of self-discipline and a commitment to personal and professional growth.

Education 2020-2024

Bachelor of Nautical Sciences /Kazakh-British Technical University, Kazakhstan Maritime Academy
GPA 2.93

Languages

Russian: Native Speaker
English: Upper-intermediate
French: A1 level according to CEFR
Kazakh: Elementary
