**Looking for a job**

## Closest Airport

Schiphol Airport

## About Me

I hope this letter will take you by surprise. I am writing to express my interest in the position of Chief Officer with your esteemed organization. With extensive maritime experience, particularly as Chief Mate on the MPSV vessel Orion 1, and other offshore PSV vessels. I am confident in my ability to make a significant contribution to your team. While working on Orion 1, I was responsible for the installation of offshore wind turbines. The vessel was operated using DP3 technology with 8 anchor attachment points and azimuth thrusters. I managed the latest ballast water treatment system, a UV-based unit with 18 tanks and an anti-heeling system that could operate in both automatic and manual modes. My role required the skillful operation and management of these advanced systems, ensuring smooth and safe operations. Also I was working on PSV (non DP vessels) Currently, I hold the position of Chief Officer on PSV offshore, but before working on offshore vessels my career was spanning over ten years, mainly on dry cargo ships, and includes significant experience on Cape-size vessels and Ultramax (Panamax with cranes) ships. This experience has equipped me with substantial knowledge in navigation across various challenging conditions and areas. My duties have ranged from Third Mate to Second Mate, where I consistently demonstrated reliability and competence. I have always excelled at working with a mixed crew, fostering effective communication, maintaining a positive work atmosphere, and efficiently managing maritime affairs. My strengths include excellent communication skills, a strong sense of responsibility, dedication, and the ability to make informed decisions quickly in dynamic situations. Continuous self-improvement and training are integral to my work ethic, and I view each contract not only as a job but also as an opportunity for ongoing maritime education. Additionally, I have experience mentoring cadets onboard and have actively participated in planned five-year maintenance at shipyards for both bulk carriers and Ultramax class vessels. That's why, everything what is described above gave me push ahead to change the type of fleet and start working on offshore vessels (non DP). My service record details a wide range of navigation areas and conditions in which I have successfully operated. I am confident that my maritime experience, combined with a proactive approach to problem-solving and continuous learning, will be a valuable addition to your team. Thank you for considering my application. I look forward to discussing how my experience, skills, and certifications can contribute to the success of your operations. Sincerely

## EXPERIENCE

### Chief Officer - Platform Supply vessel

28.11.2024 - 30.12.2024 (1 month, 2 days)
