Career Objective and Background

I have 5 years of experience at deep sea and offshore. The types of vessels I have sailed is as follows, container ships, general cargo, dredgers and heavy lift carriers. Over the last 12 months I have served as a qualified 3rd. engineering officer/DP maintenance with Rolldock Shipping B.V. on the Barossa project in Australia. I am now looking for a offshore marine company that has the same safety culture that I adhere to that will allow me to utilise my skills, leaderships qualities and give me the responsibility to hold a marine engineering position in your company. The company that I Seek puts safety as their number one priority is forward thinking and will provide ongoing quality training so that employees are always at the pinnacle of excellence.
