Notes

Good afternoon dear employer! Let me introduce myself: my name is Alexander Sokolov, I am 29 years old, single. I am a young and promising specialist. I have an experience in a mixed crew. I worked as the watch engineer on Crude Oil and Oil/Chemical tankers. I also worked in a dry dock. I have a higher education diploma, a second engineer and watch engineer diploma including all necessary certificates and tanker endorsement. Let me tell you about me in detail. I successfully graduated in speciality Marine Engineer of Volga State Water Transport. Transport the main policy of which is based on the preparation of highly qualified specialists in maritime transport. I constantly learn on my own everything that connects with my specialty. After the graduation, I did military conscription having high tolerance for stress, an excellent discipline and a great physical training. I have good tanker experience. The last contract I worked as 3/E on oil/chemical tanker 75000 DWT 2012 job. I have only good recommendation for promotion in next rang (2nd engineer) from different ch. engineers and technical superintendants. In addition, I have experience on product oil tankers. My main purpose is self-development and self-fulfillment. I frequently have private English lessons and spend a lot of time learning myself. My English level is intermediate. My strongest point is analytical thinking and the ability of a quick estimation of any situations and finding solutions and being responsible for any of my actions. I have no bad habits and I always follow the company policy I work in. I am very serious about such issues as Environment Protections, Safety, Security, Health & Hygiene Standards, Drug & Alcohol policy. On arrival on board of a ship I find a common language with the crew rather fast, I also learn the specifics of the ship operation and its machinery, get to know the safety instructions and my duties. I always achieve my goals. I am ready and have a big wish to develop in a promising company. My aim is to match a company's expectations and to surpass expectations if possible. Hopefully I will meet you in person. Thank you for giving attention to my letter! Best regards, Sokolov Alexandr. I will be glad to answer both your mails and calls. e-mail: sokolov.engineer@gmail.com Skype: Gerkules01276 Mob. +79108764909
