### Notes

My English is fluent, both oral and written, with experience working in mixed crews. I'm a hard-working, motivated, creative person with good knowledge of machinery, engineering terminology and engine room responsibilities. I have a lot of experience in offshore fleet on DP vessels, such as AHTS DP1, AHTS DP2 .The region of work is doesn't matter for me, i've worked at a lot places of African (South,West,East) oilfields, in Persian Gulf. Mainly, our work was support( cargo, backload ), bunker operations, tanker-lifting, anchor-handling, rig move etc. I am confident that my background and skills in engineering will prove to be adequate for your requirements. Also I have good references from previous work places.
