Sex: male	Height: 168	Overall size: m
Eyes color: black	Weight: 65	Shoe size: 42

### Additional info

Maritime education:	single	Additional skills:	Italian
Speciality:	Electrical Technician OFFICER	Knowledge of other languages:	ENGLISH

### Next of Kin

Next of kin:	mohammed	Kin phone:	00201129040204
Kin name, Surname:	helal	Kin address:	2 Miami St. Alexandria – Egypt.

### Notes

"Experienced ETO: Powering Maritime Innovation" my career goals: - I need to say that I am impressed by the work in shipping and my vision for the future, I am generally interested in getting more involved in the electrical technology side I can bring a lot of experience value to the team the standard I set for my self-position to live up to the rise of my expectations is as simple as following the golden rule Don't waste your time. the time is free but has a golden precise price but we can spend it wisely for that I am a student who always needs to know new skills you know every day discovering new technology if you can't take the rise by knowing about the new technology developed every day you will lose for that, I don't waste my time tracking a master of science in electrical & electronic engineering and a BSC in computer science for machine learning & artificial intelligence with a new data programming language you will be on the track I am excited by the opportunity to work with an innovative successful company such as your company I look forward to utilizing the experience I have in electrical technology to help with maintenance work on board the shipping company

Work Experience Skills: I have demonstrated exceptional proficiency in handling PLCs, SCADA systems, and various electrical and electronic equipment on board." I am responsible for maintaining and troubleshooting electrical systems, ensuring smooth operation of machinery, and conducting preventive maintenance. this successfully resolved complex electrical issues, contributing to the vessel's overall efficiency." Safety and Compliance: Emphasize my commitment to safety protocols and adherence to regulations I have consistently followed safety procedures, conducted regular safety drills, and ensured compliance with international maritime standards."

Professional Summary: - I am responsible for maintaining and repairing all electrical and electronic equipment on the vessel This includes power generation and distribution systems, communication gear, navigational aids, and safety equipment Swift troubleshooting and maintenance of fire detectors, alarm systems, and other critical components fall squarely on my capable shoulders. I can think of and find invaluable solutions Emergency Preparedness on board, I must remain calm under pressure. Whether it's a sudden electrical failure or another emergency, your quick reactions and level-headedness are vital for crew safety my

versatility extends to handling electrical systems for cargo and engine room cranes, contributing to efficient loading and unloading -----
