Extra Course

CHEMCO COURSE in EURO Tech Academy

We studied about oil and chemical tankers including on the dangers of oil and chemical goods and its different types and also different types of material containers used for different chemicals and its Manifolds on ships.

We were also taught fire prevention and fighting methods for oil and chemical tankers.

PRACTICAL

Radar observation and imaging-training It gave us practical experience on how to navigate ship at the helm and using radar while navigating the ship. It taught us the different uses of radar and how to use it in heavy traffic scenarios and narrow channels also it taught us the practical movement of ships using the thrusters from both sides and the 2 propellers of the ship. 1yr experience in 2 ships in port. I have a total 1 yr practical experience in 2 ships called Sabit Orucov and General Asadov in Baku port where I learned about the ships electrical and safety equipment's, electronics in ships helm including radar and compasses and also did different menial works as a deck cadet in those ships.

STCW course in SSNT college

Studied STCW course in SSNT College Chennai and got Continuous Discharge Certificate
