#### Comments about me:

I am writing to express my interest in the position of Marine Engineer within your esteemed company. With extensive experience working on offshore vessels, I am eager to apply my skills and expertise to contribute effectively to your operations.

I have completed four contracts as an Oiler and one contract as a Third Engineer, gaining hands-on experience with main engine operations, reverse osmosis systems, and refrigeration units. My responsibilities have included troubleshooting mechanical issues, conducting preventive maintenance, and ensuring compliance with safety regulations. Additionally, I am proficient in reading technical documentation and performing risk assessments.

I am highly motivated to enhance my professional competencies further and continuously improve my English skills to facilitate smooth communication in international teams.

I would appreciate the opportunity to discuss how my skills and experience align with your company's needs. I am available at your convenience for an interview.

Thank you for your time and consideration. I look forward to your response.
