

OMOZEMOGA MONDAY OGBENA

No 2A, Marine Road Liverpool Apapa, Lagos State Nigeria, Lagos 101235

+2347069550328 – ogbenamonday@gmail.com

Nationality: Nigerian

PROFESSIONAL SUMMARY

Self motivated individual with strong desire to pursue career in mechanical engineering. Possesses strong understanding of machines system and technologies. Aims to design and implement sustainable solution and develop new technologies to meet evolving needs of society. Takes on challenging new role harnessing interpersonal skills, collaboration and problem solving. Driven to deliver high quality service and consistent results with highly computer knowledge.

WORK HISTOSY

01/2020-Current **Maintenance Engineer**

Sunflang Nigerian Limited - Iganmu Lagos Nigerian.

I oversee the day-to-day operations of the maintenance department. Evaluates facilities to determine maintenance or repairs that need to be performed and also monitoring system performance such as troubleshooting machines issues and ensure improvement on facilities in department.

- Prepare proper production and machines breakdown reports
- Carryout preventive maintenance on machines.
- Responsible for keeping all shift records of spare parts consumption.
- Conduct 5S maintenance in department.
- Keeping all department record update
- Inspecting parts to ensure they meet machines specification.
- Responsible for air compressor, boiler and hydrant system maintenance.
- Ensure replace parts and repairs parts are properly fixed.
- Analysis the root cause of every machines breakdown.
- Identify, formulate and produce effective solution to emerging problem.
- Coordinate daily maintenance activities such as arrest water/steam/air leakage, making repairs and changing of machines parts.
- To control resources, planning and arrangement of the department.
- Training of junior staff and conducting safety inspection.

04/2018– 01/2020 **Maintenance Engineer & Safety**

Total Energies Depot – Apapa Lagos Nigerian.

- Monitoring and assessing hazardous and unsafe situations.
- Correct unsafe acts or conditions through the regular line of authority.
- Analyze our current system and equipment to determine what areas need improvement.
- Maintains awareness of active and developing situations.
- Ensure that all systems and equipment are in compliance with our safety regulation

- Creating documentation for critical analysis and making suggestions for error correction.
- Ensures there are safety messages in each incident action plan.
- Review the incident action plan for safety implications.

09/2013 – 12/2015 **Maintenance Engineer**

Mega Plastic Company Limited – Oshodi Lagos Nigerian.

- To plan for routine maintenance on production machine.
- Ensure new job star ups run correctly, making any necessary adjustments.
- Ensure air compressor machine is in proper condition.
- Review and inspect machines daily for maintenance issues and report to the head of department.
- Stop production to correct any quality issues.
- Carry out preventive maintenance schedule
- Planning work schedule for maintenance technicians and machine operators
- To maintain all equipment, hydraulics, mechanical, piping, pumps and pneumatic system.
- Ability to troubleshoot repair or replace all components of injection molding.
- Follow all clean up and housekeeping procedures.

SKILLS

- | | |
|---|----------------------------|
| ➤ Technical Troubleshooting. | ➤ Equipment Installation. |
| ➤ Team Leadership. | ➤ Engineering Support. |
| ➤ Project Scheduling. | ➤ System testing. |
| ➤ Staff Training. | ➤ Project Risk Assessment. |
| ➤ 5S Organization. | ➤ Problem Solving. |
| ➤ AutoCAD & CorelDraw. | ➤ Quality Analysis. |
| ➤ Analysis Root Cause on machines. | ➤ Safety Assessment. |
| ➤ Boiler and Air compressor maintenance | ➤ Proper documentation. |

ACHIEVEMENT IN ENGINEERING

- Strong knowledge of mechanical engineering related tools and technologies
- Solid knowledge of manufacturing methods and technologies
- Good knowledge of process plant safety, control systems and hazardous area classification
- Ability to specify repairs to existing equipment and prepare specifications for replacement equipment
- Ability to quickly adapt to newer technologies
- Strong knowledge on boiler parts combustion chamber, heat exchanger, expansion tank and burner.
- Ability to conceptualize and execute projects.
- Ability to provide engineering support at all levels round the clock.

EDUCATION

19/02/24-19/02/24	Proficiency in Survival Craft and Rescue Boats	
15/02/24	Crew Security Awareness with Designated Duties (ISPS)	
12/02/24-14/02/24	Basic Oil and Chemical Tanker Cargo Operations	
05/01/24-09/01/24	STCW Basic Safety Training	
02/2017-12/2017	Certificate of computer & Design (AutoCAD)	
04/2017-04/2018	National youth service	(NYSC)
01/2015 - 08/2016	Auchi Polytechnic Auchi, Edo State	(HND)
01/2010 – 09/2013	Federal Polytechnic Auchi, Edo State	(ND)
01/2004-06/2010	Ibilokha Secondary School Ibillo, Edo State	(SSCE)
01/1995-08/2003	Oyengba Primary School Ekpesa, Edo State	(FLSC)
