Dynamic and results-oriented Oiler, with 8 years of experience and proven ability in multitasking and problem-solving. Exceeded target and enhanced machineries lifespan and vessels performance by 35% through proactive approach in routine checks and inspections, servicing and maintenance, greasing, lubrications and cleaning, ensuring effective watchkeeping and smooth operations onboard. Records all machineries parameters and maintenance tasks for future reference. Adept in hand and power tools, teamwork combines with safety adherence and hands-on experience in mechanical, electrical and hydraulic systems. Welding and pipe fittings to ensuring operational excellence and cost-effective solutions. Seeking to leverage these skills and experience to drive team success in a dynamic and fast-paced environment.

Work History

Jul 2019- Oiler

Nov 2024 STARZS INVESTMENT COMPANY LIMITED, Onne Port Harcourt, River State.

- Conducted routine checks and inspection, servicing, maintenance, greasing and lubrication enhancing operational efficiency by 30%.
- Increased equipment lifespan by 25% by proactively identifying fault, worn-out parts and leakages, maintained accurate levels of lubricating oil, cooling water, fuel oil and air system.
- Demonstrated expertise in hand and power tools, engine room watchkeeping, ensuring accurate logs of all parameters and maintenance tasks for future reference.
- Collaborated with the engineering team to execute overhauling of Wartsila and ABC main engine, 3406 caterpillar emergency generator and C18 auxiliary generator top cylinder, saving cost by 35%.
- Led smooth operation and maximized output by mentoring junior ratings on regular greasing, lubrication, cleaning and equipment monitoring to prevent machineries failure during operations.
- Enhanced safety by 35% by adhering to safety procedures and participated in safety drills, meetings to maintain awareness of potential hazards onboard.
- Performed critical welding and fabrications on various metal components, structures and pipe fittings onboard, ensuring reinforcement and operational efficiency.

Mar 2016- Oiler

Jan 2019 WORLD CARRIER CORPORATION, Lagos, Nigeria

- Maintained safe work environment through adherence to company safety policies, ensuring effective engine room watchkeeping, cleaning and logs management.
- Elevated teamwork amongst crew members by 20% by communicating and collaborating effectively on shared tasks and progress made.
- Controlled inventory of spare parts, tools and consumables, ensured timely operational delivery, zero downtime and cost-effective solutions.
- Delivered cost-effective solutions through proactive approach in servicing, maintenance and repairs of machineries, pumps, electric motors and generators, saving company expenses by 25%
- Mentored new ratings on equipment operations and safety procedures, ensuring all components of machineries function effectively through adequate greasing, lubrications of gears, chains, and shafts.
- Re-kitted and reinstalled steerable thruster hydraulic pumps, steering motor, static pumps and actuator
- Replaced mechanical seal and spider coupling of an electric-motors, fresh and seawater pumps.

Education

- Aug 2024 National Diploma Mechanical Engineering Technology**
Eastern Polytechnic – Port Harcourt, Rivers State Nigeria
- Apr 2023 Associate Degree Marine Engineering**
Mari-tech industrial and management academy – Warri, Delta State Nigeria
- Jul 2017 Marine and industrial Mechanic Technician certificate**
Mario-gas technologies training institute, Port Harcourt Rivers State
- Aug 2016 Trade Test Certificate Class 1,2 & 3 in Marine & Industrial Mechanical Technician**
Federal Ministry of Labor & Employment

Skills

- Safety rules and regulations
- Vessel and machineries inspection
- Excellent communication
- Technical understanding
- Logs and inventory management
- Greasing and lubrication
- Analytical thinking and problem-solving
- Equipment monitoring
- Emergency response
- Welding and Fabrication
- Proactive and safe work practice
- Repairs and maintenance
- Hand and power tools
- Multitasking and attention to details
- Machineries operation
- Teamwork and collaboration
- Mechanical and electrical aptitude
- Documentation and reporting
- Adaptability and flexibility
- Schematic and blueprint

Interests

Organizational growth and development
Career growth and advancement
Travelling and foreign language

Languages

Native Languages: Yoruba and Efik

English 
Proficient (C2)

Safety trainings and certifications

Charkins maritime and offshore training center

- Personal Survival Techniques
- Personal Safety and Social Responsibility
- Elementary First aid
- Fire Prevention and Firefighting
- Ratings Forming part of Engineering watch, MOTORMAN
- International Ship and Port Facility Security Awareness, ISPS
- Oil and Chemical Tanker Cargo Operations
- Proficiency in Survival Craft and Rescue Boats
- Basic Offshore Safety Induction and Emergency Training, OPITO-BOSIET+EBS
- Helicopter Underwater Escape Training, HUET+CAEBS
- Hydrogen Sulfide Awareness, H2S
- Proficiency in Advanced Firefighting
- Advanced Medical First-aid
- Welding and Fabrication Certificate
- Offshore Safety Permit, OSP

Nigerian maritime administration and safety agency, NIMASA

- Seafarer identification documents, SID with status number N/ER/7950
- Seafarer registration form
- Seaman discharge book with sea service testimonial
- Covid-19 full dose of vaccination
- International certificate of vaccination, yellow fever
- International passport
- Seafarers medical certificate
- Watchkeeping certificate of proficiency regulation III/4
- Watchkeeping certificate of proficiency regulation III/5 Able seaman engine
- Medical certificate of fitness
- English proficiency certificate, marlin test with a score of 89%
