About my experience

Hi, I want to introduce briefly my experience and myself a bit

I am a marine engineer, higher education, working COC and endorsement as Chief Engineer. I have been working at sea since 2012, of which 48 months as a 3rd engineer of sea experience on tankers and 21 months on LNG as a Cargo Engineer clear sea service.

- At this moment I have experience with delivery of new building vessel, preparation the vessel for departure after delivery, gassing-up and cooldown cargo tanks on LNG VESSELS.

In planned and unplanned dry-docking, post dry-dock operations on LNG Carrier and Tankers.

Routine cargo operations and various difficulty maintenance and repairs of High-pressure gas compressors and LD compressors and other equipment.

- I have been working as a Cargo Engineer under different charterers including Chevron (the most recent) Shell, Total Energies, other... Terminals were predominantly Australian and Asian (Japan, Korea, China, Singapore, Taiwan) however some vessels have called European ports and USA.

- Last vessels were ME-GA type with various applications of HD and LD (16 Bar) compressors and sub cooler. ME-GI vessels was with High pressure compressors (300 Bar) Burkhardt 5 stage (Laby-GI) 4LP-250 5LP-250 and 6LP-190 both lubricated and lube-less.

- Have experience with reliquefaction system and Sub cooler, ALS.

SAMSUNG and DSME built, GTT No96, MARK III membrane tanks, Kongsberg IAS system. Various types of Gas combustion units and Inert gas systems.

I'm open for new opportunities and always available for any kind of discussions if any more questions appeared.

Thank you for attention to my Application Form

Best regards

Have a nice day!

Pokholkov Vladyslav
