**About Me**

Hello, I'd like to introduce myself. I'm experienced and dedicated Marine Engineer with over 7 years of expertise in maintaining, repairing, and operating machinery on Crude Oil, Oil/Chemical tankers and Container vessels as well. Proven ability to ensure the efficient and safe operation of engines, systems, and equipment. I had drydock experience, where I was working together with MAN engineers with repairing MAN ME control system, renewing main and crosshead bearings, etc. My last contact I served as a Second Engineer Trainee, gaining valuable experience in managing crew members and overseeing daily operations. So, I'm looking to contribute my skills and knowledge to a dynamic maritime team in your good company.
