About Me

Personal qualities: Accuracy and attention to detail.

Professional skills: Understanding the process of performing various types of welding. Experience in performing various welding techniques and working with various materials. I am able to carry out quality control of welding joints, as well as carry out the necessary tests and measurements. I know how to properly set up and maintain welding equipment. I strictly follow safety rules when working. I have experience in welding ballast systems and scrubber systems, as well as deck structures. I perform welding work with high quality, safely and efficiently. I am always ready to learn the latest technologies and improve in my work. Actively contributed to the daily operations of the engine room, assisting senior engineers with routine welding, maintenance tasks, and troubleshooting issues as they arose. Ensuring compliance with safety regulations, and participating in emergency drills and procedures. Maintaining a ship's deck equipment, including lifeboats, anchors and mooring lines. Also perform routine maintenance tasks, such as painting, cleaning and lubricating machinery.
