

IDRIS MATHENGE
POSITION APPLYING : OILER
AVAILABILITY : READY TO JOIN

NEAREST AIRPORT : MOI INTERNATIONAL AIRPORT

I am dedicated and skilled Oiler with 13 months of hands-on experience in machinery lubrication, preventive maintenance, and engine room operations. I am also experienced in oil system monitoring, troubleshooting, and maintenance of engines, compressors, and pumps. I have gained strong knowledge of safety protocols, fuel handling, and record keeping to ensure smooth ship operations. Throughout the 13 months I have gained skills in identifying early signs of mechanical failure, assisting in troubleshooting and supporting engine overhauls under senior engineers

EDUCATION

2019-2022

TECHNICAL UNIVERSITY OF MOMBASA

- Diploma in Marine Engineering

**BANDARI MARITIME ACADEMY-
2023**

- Standards of Training Certification and Watchkeeping

TECHNICAL SKILLS

- Lubrication and machinery maintenance skilled ensuring smooth operation by applying proper lubrication techniques.
- Maintaining purifiers, filters and separators to ensure clean lubrication and fuel efficiency.
- Identifying wear, detecting faults, and assisting in machinery repairs to prevent breakdowns.
- Assisting in safe fuel transfers, monitoring fuel quality, and preventing contamination
- Engine room safety and compliance
- Machine and workshop operations

WORK EXPERIENCE

OILER

July 2024 - December 2024

- Performed lubrication and oiling of all rotating machinery, ensuring smooth operation and minimizing friction-related wear by 25%..
- Checked and maintained oil levels in main engines, auxiliary engines and deck machinery, ensuring proper lubrication at all times.
- Assisted in cleaning and maintenance of purifiers and filters, ensuring optimal fuel lubrication system performance.
- Monitored engine temperatures and pressures, reporting and abnormalities to senior engineers for corrective action.
- Carried out routine checks on pumps, compressors, and hydraulic systems, ensuring no leaks or pressure inconsistencies.
- Assisted in replacing and replenishing lubricants, ensuring that all moving parts received the correct oil and grease specifications.
- Conducted regular inspections of shaft bearings and gear systems, preventing excessive wear and ensuring smooth power transmission.
- Participated in the maintenance of bilge and sludge systems, ensuring environmental compliance with MARPOL regulations.
- Assisted in bunkering operations, verifying correct fuel transfer procedures and ensuring no contamination or spillage.

ENGINE CADET/OILER

September 2023- April 2024

- Trained in lubrication system operation and maintenance, understanding different oil grades and their application in marine engines.
- learned about wear prevention, applying correct lubrication techniques to extend the life of moving components.

SOFT SKILLS

- Attention to detail ensuring precise oil level monitoring, accurate record keeping and correct maintenance procedures.
- Teamwork and communication working efficiently with engineers, crew, and technical teams to ensure smooth ship operations.
- Time management prioritizing scheduled maintenance, lubrication routines and troubleshooting tasks to avoid delays and machinery failures.
- Able to adapt to different work conditions
- Effective in communication

- Mastered startup procedures for Main Diesel Engine, including pre start checks, fuel priming, and system monitoring for safe and efficient operation.
- Learned about electrical safety in the engine room, assisting in basic wiring, testing and insulation checks.
- Actively participated in drills for fire-fighting systems, emergency shutdown procedures, and evacuation protocols.
- Tested and maintained electrical starters and batteries, ensuring proper functionality of the ship’s power system.
- Gained knowledge in piping systems and valve operations, learning their role in fuel, water, and lubrication systems.
- Performed maintenance on ventilation and cooling systems, ensuring proper air circulation in the engine room
- Assisted in cleaning and assembling fuel injectors, ensuring proper atomization and combustion efficiency.
- Assisted senior engineers on dismantling and reassembling bearings, understanding alignment, clearances, and lubrication needs.

**TESTIMONIAL OF SERVICE-MR MATHENGE IDRIS ID NO.37299560,
CADET TRAINEE (MARINE)**

This is to certify that Idris Mathenge is a Cadet Trainee and was attached with the Kenya Ports Authority Marine Engineering department for his post training industrial internship.

Mr. Mathenge worked on-board Salvage Tugboat Mwokozi II, he was on watch keeping duties in the Engine room and under supervision of Senior Marine Engineers.

From **July 2024** to **December 2024**, he served on board Tug boat **Mwokozi II** in the capacity i.e.

Vessel	Engagement	Discharge	Capacity	KW(HP)	Mode of propulsion
Mwokozi II Imo.9911563	01/07/2024	27/12/2024	Cadet Trainee	7400kw	Twin Screw (ASD)

During his period of engagement, Salvage Tug Boat Mwokozi II was deployed within Kenyan territorial waters.

Mr. Mathenge report as to.

Conduct - Excellent,
Ability - Excellent,
Sobriety - very good.

Stephen Toya.

Manager Marine Engineering

Kenya Ports Authority

P.O. Box 95009 - 80104 Mombasa, Kenya

22nd April 2024

To Whom it May Concern.

**TESTIMONIAL OF SERVICE-MR IDRIS MATHENGE ID NO. 37299560-
CADET TRAINEE (MARINE)**

This is to certify that Idris Mathenge is a Cadet Trainee and was attached with the Kenya Ports Authority Marine Engineering department for his industrial attachment.

Mr. Mathenge was exposed and worked in the maintenance workshops and also on-board various crafts where he worked with other Kenya Ports Authority Engine- room officers and under supervision of Senior Marine Engineers.

From **September 2023** to **April 24**, he served on board **Salvage Tug Boat Mwokozi II** as:

Vessel	Engagement	Discharge	Capacity	KW(HP)	Mode of propulsion
Mwokozi II IMO.9911563	22/09/23	19/04/24	Cadet Trainee	7400kw	Twin Screw (ASD)

For the Tug Boat the generator capacity is (3 No) 150KVA.

During his period of engagement, he was working on board our Salvage Tug boat which is deployed to work within Kenyan territorial waters.

Mr. Idris reports as to.

Conduct - Excellent,

Ability - Excellent,

Sobriety - Excellent

Mr. Idris worked and was exposed to the workshop Process as below.

I. Machine Shop Section

- Exposed to different types of machines with different operations with

Kenya Ports Authority

P.O. Box 95009 - 80104 Mombasa, Kenya

Tel: +254 41 2112999 / 2113999

Mobile: +254 709 092999 / 709 093999 / 730 653999

www.kpa.co.ke | KenyaPortsAuthority

Kenya_Ports

Materials used.

- Performed simple operations on the lathe Machines e.g.
Turning, cutting thread and parting off.
- Did some boring and drilling using Radial drilling Machine.
- Shown how to cut keys and key-ways.
- Had a hand operation involving indexing e.g., machining hexagonal faces.

II. **Engine Shop Section**

- Had hands on experience in different types and sizes of engine overhauls, maintenance, and repairs.
- Witnessed how different engines were stripped to pieces, internal parts serviced then boxed up.
- Physically did some valve/seat grinding, removal and replacement of piston rings.

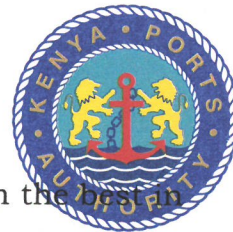

III. **Plate – Shop Section**

- Exposed to fabrication work of various items such as buoys and slipway carriages. This covers plate preparation like marking the material then ox-acetylene gas cutting the material to size. The section that forms the cylindrical part of the buoy is then rolled and finally the ends of which are electro-arc welded.
- The basic welding techniques of surface preparation and then welding using Electro-Arch welding equipment or ox-acetylene equipment was demonstrated during the fabrication of the slipway carriages.

IV. **Marine Afloat Workshop**

- Worked under supervision of the Marine Afloat staff, whose functions basically are to operate the already serviced marine craft. This involves preparing the main propulsion engines for starting (like running the priming pump to lubricate the system before applying the starting air to crank the engine to speed and then fire the engine by applying fuel) then there after monitoring the engine parameters while the engine is running on load.

Mr. Idris is very hardworking, co-operative, dedicated, industrious, team player and his work performance and knowledge of Marine systems is satisfactory.

Any assistance accorded to him will be highly appreciated. We wish the best in his future endeavors and self-developments.

A handwritten signature in blue ink, appearing to read "Stephen Toya", with a large, stylized flourish at the end.

Stephen Toya

Manager Marine Engineering.
