Azerbaijan, Baku / Citizen of Azerbaijan

## ABOUT ME

I am an experienced mechanic with over 8 years of hands-on experience in operating power plants at sea. My expertise extends to working on various types of vessels, including bulk carriers and container ships. Within this role, I have been responsible for the maintenance and repair of a wide range of engine room equipment, including auxiliary engines, boilers, compressors, pumps, desalination units, fuel separators, oil separators, and bilge water separators. Additionally, I have managed the control and distribution of steam to ship consumers, overseen the start-up and operation of incinerators, and conducted maintenance and repair on hydraulic systems. My responsibilities also encompass ensuring the proper functioning of all necessary mechanisms and systems essential for the technical support of the ship.

## WORK EXPERIENCE

### 4th Enginner

**VERNO SHIPPING CORPORATION / 03 May 2021 - 07 Nov 2021**

**M/V MSC Gianna - Container Carrier - Panama**

#### Responsible for:

- Engine Room Service:

Carrying out engine room service and fulfilling all assigned duties as required.

- Maintenance of Auxiliary Machinery:

Responsible for the maintenance of auxiliary machinery, including compressors, pumps, FWG (fresh water generator), sewage treatment plant, incinerator, and boiler.

- Additional Duties:

Fulfilling any other duties designated by the Chief Engineer and 2nd Engineer as necessary.

- Understudy Role:

Serving as an understudy to the 3rd Engineer if required, assisting in understanding and performing their duties.

- Water Analysis:

Conducting water analysis for both high-temperature (HT) and low-temperature (LT) systems, as well as boiler water, to ensure optimal performance and safety.

- Evaluation Report

### 4th Enginner

**ORION REEDERET QmbH PALAVAN MARITIME / 09 July 2020 - 14 Nov 2020**

**M/V PALAWAN - Bulk Carrier - Marshall Islands**

#### Responsible for:

- Engine Room Service:

Perform engine room service and fulfill all required duties.

- Maintenance of Auxiliary Machinery:

Maintain auxiliary machinery, including compressors, pumps, FWG (fresh water generator), sewage treatment plant, incinerator, and boiler.

- Additional Duties:

Undertake any other duties assigned by the Chief Engineer and 2nd Engineer.

- Understudy Role:

Serve as an understudy to the 3rd Engineer if necessary.

- Water Analysis:

Conduct water analysis for HT/LT systems and boiler to ensure optimal performance.

### 4th Enginner

**CANAKKALE LIMAN ISLETMESI A. S. / 05 July 2019 - 22 Dec 2019**

**M/V Elaziz - General Cargo - Malta**

#### Responsible for:

- Engine Room Service:

Perform engine room service and fulfill all required duties.

- Maintenance of Auxiliary Machinery:

Maintain auxiliary machinery, including compressors, pumps, FWG (fresh water generator), sewage treatment plant, incinerator, and boiler.

- Additional Duties:

Undertake any other duties assigned by the Chief Engineer and 2nd Engineer.

- Understudy Role:

Act as an understudy to the 3rd Engineer if required.

- Water Analysis:

Conduct water analysis for HT/LT systems and boiler to ensure optimal performance.
