

## LUIZ GUILHERME COSTA BORDALLO

### Able Seaman

BRAZIL - Vila Velha – ES • mncguilhermeh@gmail.com • (27) 9 8171-0771

#### ABOUT

---

Specialized professional with 9 years' experience working as a Deckhand and Deck Seaman on pilot boats, Flotel (Accommodation Vessel) type vessels and currently working on a Crude Oil / Shuttle Tanker, FPSO and PLSV. I have courses in the area and advanced English language skills, making it easy to conduct tasks in a mixed crew environment.

I have excellent results with teamwork, a spirit of leadership and flexibility. Easy to learn, I focus on performing my duties safely and dynamically.

As a nautical teacher/instructor, I have been qualified to teach speedboat and jet-ski pilots at the Escola Náutica Oceânica company since 2019, giving theoretical and practical lessons on the basics of navigation, ripeam, whistles, etc.

As well as docking and undocking boats, basic maintenance of outboard motors and jet-skis, first aid and firefighting.

#### PROFESSIONAL BACKGROUND

---

##### SUBSEA 7 – SEVEN MERLIN “PLSV” – PIPE LAYING SUPPLY VESSEL

Able Seaman

November 2024 - TODAY

Providing assistance during navigation; general cleaning of the vessel; overseeing heavy loads; preparing the vessel and working on offshore area, loading tubes to use at deep water on Campos Basin or Santos Basin, operations with ROV's, act on Murring or Unmuring operations, at different ports.

Same job at another vessel at Subsea 7 (Seven Waves)

##### MODEC – FPSO MV26

Able Seaman

April 2024 – May 2024

Providing assistance during navigation; general cleaning of the vessel; overseeing heavy loads; preparing the vessel and working on FPSO connections and disconnections for offloading.

Constant vigilance during navigation, monitoring the traffic of other vessels, alerting the navigation team to any potential risks.

Operating deck equipment, such as winches, cables, chains, and other mooring equipment.

Checking safety equipment such as lifebuoys and fire extinguishers.

Painting tasks (such as painting the ship's structure and other deck surfaces).

Cleaning and maintaining deck areas.

##### Knot Management do Brasil (Dan Sabiá - Shuttle Tanker)

ORDINARY SEAMAN

JUNE 2023 – APRIL 2024

Foreign-flagged ship with a foreign crew. Shipped in 60x60 rotation. I am responsible for the general maintenance of the vessel, painting, and rust treatment.

Assisting with berthing and unberthing maneuvers and connection maneuvers to FPSOs/Platforms for loading.

I conduct surveillance and patrols during loading and unloading; quarter-hourly navigation service; maintenance of salvage and fire-fighting equipment.

I conduct seamanship services in accordance with the client's guidelines and procedures, as well as first-level maintenance and preservation of survival and rescue equipment.

GranEnergia (Vênus Flotel)

Embarked on a 28x28 rotation. Responsible for the general Maintenance of the vessel, assisting with berthing and unberthing maneuvers.

I receive flights as a BOMBAV or luggage handler; I conduct maintenance on salvage equipment, cargo handling (winches, cranes) and operations with winches, receiving the ranch and miscellaneous equipment.

Praticagem do Espírito Santo - Ipiranga Lanchas (Bacutia – Piraque)

ABLE SEAMAN & ORDINARY SEAMEN

APRIL 2016 – MARCH 2023

Embarked on 6x1 shifts, conducting daily cleaning and checklists of all vessels, checking fuel levels, and refueling.

Kept the boats ready for maneuvers.

Conducting the maintenance of salvage and fire-fighting equipment, collaborating as a pilot in the embarkation and disembarkation of pilots within the port and outside the bar.

Cooperating with authorities and stakeholders to coordinate emergency response activities and ensure compliance with regulations.

Risk assessment and implementation of preventive measures to avoid incidents.

Conservation and maintenance of the vessel.

Participating in watchkeeping and vessel operation. Ensuring the upkeep of loading and unloading safety equipment. Cleaning the deck and other compartments of the vessel. Perform other tasks of the same nature and level of complexity associated with the organizational environment.

---
