Caracas, Venezuela

### LANGUAGES FLUENCY

Spanish

*Proficient*

English

*Upper-intermediate*

Dutch

*Elementary*

### PERSONAL VALUE

Team Work

Honesty

Responsability

Creativity

Adaptability

Empathy

Critical Thinking

Multitasking

### DOCUMENTS

- Passport
- Maritime Health Certificate
- COVID-19 Vaccines
- Yellow Fever Certificate
- P Form
- Proficiency Certificate

### SUMMARY

As a dedicated maritime engineering cadet, I am driven by a passion for the sea and backed by a solid foundation in Maritime Studies. With a strong commitment to excellence, I have equipped myself with a comprehensive set of certifications in safety, navigation, and emergency response.

My interest stems from a desire to excel and make a meaningful impact. My main goal is to become a trusted and skilled leader, dedicated to contribute the safety and efficiency of vessel operations while continuously advancing my skills and knowledge.

I possess a natural aptitude for languages, with good proficiency in English while actively pursuing fluency in Dutch and Portuguese. Additionally, I am eager to expand my linguistic repertoire by further developing my skills in other languages like German and French.

Currently seeking internship opportunities, I am excited about the prospect of contributing, learning, and growing within various sectors of the maritime field. As I pursue my degree in Maritime Engineering and Merchant Marine, I am proactive and skilled in problem-solving, ready to apply my expertise in a dynamic maritime environment.

## EDUCATION

National Experimental Maritime University of the Caribbean

Maritime Engineering

*Specialty: Operations*

2018-Present

### Technical Skills

- **Navigation:** Proficient in celestial navigation, electronic navigation systems (GPS, radar, ECDIS), voyage planning, chart interpretation, and collision avoidance techniques.
- **Communication Systems:** Skilled in operating and maintaining communication systems onboard ships, such as VHF radio, GMDSS equipment
- **Safety Equipment:** Knowledgeable about safety equipment and procedures, including life-saving appliances, firefighting equipment, emergency drills, and response protocols.
- **Teamwork and Leadership:** Effective in working as part of a team and providing leadership in emergency situations, with a focus on clear communication, decision-making, and problem-solving.

### Projects

- **Ocean Passage Optimization Initiative:** Spearheaded a team tasked with optimizing a simulated ocean passage, a critical project aimed at enhancing efficiency and safety at sea. Led the development of a comprehensive plan integrating sophisticated weather analysis, route optimization strategies, and contingency planning measures.
- **Leveraging advanced Electronic Chart Display and Information System (ECDIS) software** to meticulously chart navigational routes, ensuring precision and reliability in navigation. This project was part of an intensive Radar Adjustment and Plotting course, wherein practical

## CERTIFICATIONS

- IMO Model Course 3.27 Security Awareness Training for all Seafares
- IMO Model Course 1.39 Leadership and Teamwork
- IMO Model Course 3.26 Security training for seafares with designated security duties
- IMO Model Course 1.38 Marine Enviromental Awareness
- IMO Model Course 1.21 Personal Safety and Social Responsibilities
- IMO Model Course 1.20 Fire Prevention and Fire Fighting
- IMO Model Course 1.19 Proficiency in Personal Survival Techniques
- IMO Model Course 1.13 Elementary FirstAid
- IMO Model Course 1.01 Basic Training for Oil and Chemical Tanker Cargo operations
