SIGNIFICANT HANDS-ON EXPERIENCE

- Active participation and overseeing the operation, maintenance and overhauling of main engine (Yanmar, MAN B&W, Sulzer,...) and auxiliary engines (MAN B&W, Bergen, Cummins, Sulzer/Wartsila...) to ensure

optimum performance and improve overall efficiency of the engines both at part and full load operating conditions.

- Major overhauling of various air compressor, pumps and pumping systems involving cargo, ballast, condensate, cooling/heating and bunker system comprising both roto-dynamic and positive displacement type pumps.
- Maintaining total compliance with ISM and SMS status to ensure personal and general ship safety for improved productivity and zero injury and loss time.
- Installing, operating and maintaining essential shipboard machineries and equipment such as fuel oil and lube oil treatment systems, steering gear, winches and windlass, air compressors, ventilator, air conditioning and refrigeration system to mention a few in the company of responsible officers and other personnel.
- Carrying out routine servicing, planned and preventive maintenance for all running machineries while responding promptly to defective equipment to maintain proper functioning conditions with zero injury and down time.
- Supporting in condition monitoring analysis regarding vibration, thermographic and ultrasound analysis on board.
- Maintenance, operation and preparation for survey and inspection of boiler and other pressure vessels and other shipboard machineries
- Taking responsibility of monitoring shipboard tests and sampling of critical equipment and essential consumables to ensure compliance and reliability while maintaining adequate service life of the materials and equipments.

STRENGTH (Technical)

- Equipment troubleshooting and diagnostics abilities.
- In-depth knowledge of planned and preventive maintenance systems (PMS)
- Skilled in marine auxiliary machinery operations, maintenance, and repair.
- Recording and monitoring machinery log and maintaining comprehensive engine stores and spares inventory.
- Outstanding dedication to energy efficiency management on-board while paying detailed attention to accuracy of resource control and management.
- Possess very good knowledge of offshore and shore-based safety in line with the international Safety Management and code of safe working practices.
- Microsoft office proficiency (Professional proficiency)
- Accurate technical report drafting (intermediate proficiency)
- Computer Aided Drafting (CAD)
- Risk assessment

STRENGTH (Leadership)

- Emotional intelligence.
- Very comfortable working with people in both multicultural or multiracial environment
- Process and result oriented.
- Great Conflict avoidance and resolution character
- Attention to details

ACADEMIC PROFILE

- | | |
|--|-----------|
| • Maritime Academy of Nigeria Oron, Akwa Ibom State
<i>STCW COC Course for Officers (OOW iii/1 Unlimited)</i> | 2020-2021 |
| • Maritime Academy of Nigeria Oron, Akwa Ibom State
<i>Higher National Diploma (HND Marine Engineering)</i> | 2015-2017 |
| • Maritime Academy of Nigeria Oron, Akwa Ibom State
<i>National Diploma (ND Marine Engineering)</i> | 2012-2014 |

PROFESIONAL BODY MEMBERSHIP:

- Associate Member the Nigeria Institution of Marine Engineers and Naval Architects.
- Associate Member Institute of Marine Engineering Science and Technology.
