Sukher

Professional & Maritime Training courses.

CSO (Company Security Officer) [Certified]
QSM (Quality & Safety Management Surveyor)
[Certified]
PSC (Port State, Venting Inspector) [Certified]

Professional Experience

Over **30** Years of sailing experienced
worked in world's renowned companies
From 1983 till date presently sailing
Onboard vessels.
The World's largest high-tech Environmentally
Friendly & Green ship's ever built till date.

Currently serving as Master ship's captain
over 15 years, **Available from April 15TH 2025**

Technical Skills & Training Courses As a Masters

Human Element & Situational awareness Course
consist of large ship handling ships from **13,000 TEUS**
to **20,000 TEUS** vessel Trained Master. **STCW**

Convention table A II/2 At Singapore 2017.

The most significant corporate clients that have contributed to my
professional growth and enhancement of knowledge include the
following being divided into assurance engagements and other
business.

Safe Handling Of ships in Suez Canal Training & certified for ships over
18,000 TUES, **Maritime Training & Simulation Centre. [Port Suez.]**

I have experience on the general cargo vessels handling heavy lifts, operating stulcken derrick. Also experienced on the container vessels, reefer, bulk, break bulk, general cargo Chemical Tanker.

Honors And Awards, Achievements

Port State Control Various ports of the world carried out inspection by PSA inspectors and vessel prepared up to standard required in order to avoid detained for any reasons except for minor deficiencies which were required by the Regs, during my duties my vessel has never been fined or rectified on the spot neither later in spite of old ages of the vessel I've served.

U.S Coast Guard

Prior voyage to US waters one of my last UASC fleet vessels, I prepared the vessel & conducted a thorough and very comprehensive inspection, modified Fittings and fixture as required by the Code of Federal Regulations, arranged equipment, conducted frequent training sessions onboard staff. After arrival on the port of the US, the vessel was inspected by the USCG and found fit and up to date in all respects, further declaring that the vessel had passed up to the higher standards as required by CFR.

1. Management Assignment as Took over conventional general cargo vessel with 40 tons elect: hydro cranes **converted in to container vessel**, and changed flagged carried all surveys and renewed certificates, carried out Audits implemented ISM, ISPS and various inspections and tests. Prepared container bay plan and loading discharge software on Microsoft excel which was approved by company tier after few months same program updated with Casp 6.1 software program

2. I have carried out both the internal and external audits and as per our company's policy, carried out ISM training sessions onboard and aboard on various fleet vessels. Having carried out training and teaching programs as a training officer & have conducted ISPS Training onboard vessel. Carried out ISPS internal and external Audits

3. Assignment/ project) **As per SOLAS** requirement I have prepared a major and very important manual so called "**FIRE OPERATIONAL & TRAINING MANUAL**" on behalf of UASC Kuwait fleet marine Superintendent, which consists of around 250 pages and is fully **approved by LLOYDS REGISTER** which is presently implemented and in use 3 fleet container vessels

4. ISPS International Ship and Port Facility Security Carried Training to ship staff on various fleet vessels and conducted surveys and audits on behalf of company, various vessels up to date for the same with positive results.

SEACOR UAE. 2006

5. IMO LEVEL 2 OIL SPILL Training For Supervisors /On Scene Commanders, SEACOR UAE. 2006 which includes modules conducted Oil Spill Response Management & Clean-up , Hazardous Material Response Management & Clean-up ,Waste Management ,Industrial Services, Site Remediation , Consultancy ,Training , Project & Facilities Management, Environmental & Security Products from **SEACOR Environmental Service (Australia) conducted in UAE**

6. Worldwide advanced communications Trained working on AMOS, Telarus USA, Atseamail Orillamail, Bassnet KVH MBOX, Gtmall, Skyfiles, StarLink of computerized reporting and planned maintenance (PMP) etc, Computer Data and planning on various software's as **Casp.6.1 Task Master, Sea Master Loadcom, Kasper, ISinterschalt navis MACS3** and various world/class recognized container terminals program for container planning etc...

7. Shore Experience Environment Health & Safety Officer DP-World UAE. As *EHS officer, Environment Health & Safety Officer / Inspector at DP World Ports Environment Health & Safety. 2006. EHS Tasks / events during service prepared various training program & Surveying vessels Audits & Inspections, provided training modules presentations on various environmental health & safety/security/ dangerous goods, handling carrying as well as hazmet cargo.*

1. **IMDG CODE** presentation & Guidelines to Agents Shippers contractors for proper handling.
2. Training Program Containers Loading Discharging onboard and at terminals.
3. Wrongly Labeled IMDG containers and consequences.
4. Handling and operational hazard of leaked containers during **HAZMAT** operations.
5. Training to non-marine staff for **PSC EHS** operational duties and tasks.
6. Conducted onboard vessel **PSC EHS** Inspection.
7. Preparing reports for Leaked **IMDG** Containers.
8. Carried out Inspections for Auctions containers.
9. Issuing **NOC** for all of above matters.
10. Occupational Health and safety rounds and inspection all around Ports and Terminals.
11. Safety and Security awareness and executions of ports regulations.
12. Third party safety arrangements and issuing of Hot work permits to port and ports contractors.
13. Third party inspections and executions of local regulations handling organizing Stevedores matters.
14. Issuing **NOC** for in port Transit cargo for safe discharge or transship as per Health rules.
15. Conducting onboard Inspection prior discharge of Cargo.
16. Issuing guidelines to ship staff, port Stevedores and contractors.
17. Report /Article submitted suggestions guide lines Ports Terminal and Harbor.
18. Summary Submitted Leaked **IMDG** containers during Year 2005 and 2006.
19. Submitted article on EHS for Annual Award.
20. **PSC** Facts for onboard staff guidelines.
21. Various **PSC** general ship inspections and guidelines in form of Checklist to ship staff.
22. Various **ISM ISPS** inspections surveys and audits preparations guidelines and check list to ship staff.
23. Prepared on scene assessments survey, security assessment and **SSP** for various ships.

8. UASC Dubai CMD operation dept worked as ship planner (2008). My tasks as follows but not limited to:

- Smooth Operational management
- Monitoring vessel movements
- Managing to plan maximum capacity loading
- Cost and space calculations
- Bunker / fuel calculations cost & consumptions control to very economical budgeted utilizations etc
- Arranging managing vessel's requirements ensures coordinates to satisfy associated & corporate clients under MOU. Preparing performance reports.

WORK SHOP & TRAINING.....

Various in-house workshops and trainings to develop hard and soft skills to assist in maritime professional development. Includes trainings on Safety updates, ISPS Security, Large ship handling etc

9.

Associated with **Noble shipping** As a General Manager Operation.

- *Noble Shipping Company (Pvt.) Ltd. General Manager Operation 2004, 2005 2006, 2007 2011, Noble Shipping is based at the port city of Karachi and is licensed to operate at all the three major ports in Pakistan (namely Karachi, Port Qasim and Gwadar Port). I have a good contact & developed good relationship nationwide coverage through our associates at all the major cities in Pakistan and the neighboring Afghanistan. We handle both Sea and Air shipments with all commodities, as well as Project/Heavy Lift/OOG/ IMDG Cargoes. I organized with good relations & affiliation with GOVT Authorities as well ports, being Master Mariners we do have big association working together in Maritime Shipping related industry. Self actively involved in the following activities at Karachi Port, Port Qasim and Gwadar Port (Newly developed Deep Sea Port).*
- *Following tasks as Agency Handling Of:*
- *Surveying & Inspections of vessels, on hire off hire audits & survey & inspections, third party damage, reports, claim & insurances,*
- *Liner Vessels, Tramp Vessels*
- *Bulkers, Tankers*
- *Projects / Heavy lifts handling*
- *Terminal Operations, Stevedoring*
- *Chartering & Brokerage*
- *Freight Forwarding*
- *Inland Transportation*
- *Transshipment, Warehousing Bunkering, Surveying.*
- *Proficient in Microsoft Word, Excel, PowerPoint, Visio, Projects (2003/2007/2010) and Lotus Notes, Proficient with audit internal external documentation tool.*
- *Various CBT [Computer based training] completed via seagull Norway, NVOD KVH more than 40 modules. **PPT, Power point presentation & Tutorials & Lectures prepared & conducted***
- *Professional assignment applied for a post of management level / Managerial job in U.A.E underwent a psychometric test conducted Jan.2012 by **PROFILES MIDDLE EAST** Result successful .*

10. As a Master duties/ tasks during last maritime onboard / ashore & ship survey, inspections, cargo, project management, technical management, liaison with authority, insurance and P&I, containers, witness & appraisals, trainings in international shipping operation as follows.

1. Give adequate operational, technical, nautical and crewing support to the vessels assigned
2. Prepare, control and meet annual operational budgets and reports generation
3. Monitor vessel performance and its compliance with class and flag state requirements.
4. Supervise the repair process of the vessel and plan its periodic maintenance cycle
5. Keep the vessels' technical documentation, drawings, records and reports in the office up to date and organized.
6. Effective implementation and maintenance of company's Quality, Health, Safety & Environmental Management System as per ISO 9000, ISM & HSE.
7. Training of Ship Officers and Crew for Safe Operation of vessels as per ISM, ISO 9001, ISO 14001 & HSE Standards, Safety and Security subjects.
8. Pre Ship condition survey/Inspection
9. P&I condition survey/Inspection
10. Cargo securing & stowage, Loading & Discharging.
11. General cargo condition surveys Shippers, Ship-owners, receivers, P&I clubs, charterers & Insurance underwriters.
12. Cargo Risk management.
13. Draft Surveys, Holds, Tanks Inspections.
14. Pre-Loading/Discharging Survey/Inspections.
15. On/Off hire surveys.
16. Maritime Fraud Investigation.
17. Maintenance programs /dry docking.
18. Supervisions of repair works.
19. Safety, Security, Quality, Environmental Health & Safety Management Systems (Development, Implementation and Audits.)
20. Liaison with flag State & Class for the vessel's certification.
21. Provision of Statutory required Safety Management System for fleet vessel.
22. Accident, Personal Injury, Death and Incident.
23. Trainings, ISM International Safety Management, International Ship & port security Facility code, HSE MS Health Safety & Environment Management System. And various training maritime related trainings.
24. **Liaising with and developing good working relationships** with the client to deliver engagement expectations, **Co-ordination** with experts in various fields in Maritime industry & Trade professionals, and providing **ongoing advisory services** to clients and **acting as a point of contact** in the firm for Commercial Trade Operation related queries from the clients.
