3Engineer & 2Engineer

I am a qualified Marine Engineer with over 10 years of hands-on experience aboard offshore vessels operating under dynamic positioning systems (DP2/DP3). My background includes extensive work on PLV, CLV, Wind Farm Installation vessel, Barges, Seismic, ROV support, AHTS and PSV.

I hold a valid COC III/1 and all required STCW and DP Maintenance certifications. I am well-versed in engine room management, planned maintenance systems, troubleshooting of mechanical and electrical systems, and ensuring compliance with flag, class, and ISM requirements.

Working in multinational crews and under major offshore operators, I've developed a solid reputation for safety, reliability, and technical competence. I am confident that my experience and proactive mindset would make me a strong asset to your team.

Skills

Marine Diesel Engine Operation & Maintenance

Dynamic Positioning Systems (DP2/DP3) – Awareness & Maintenance

Troubleshooting & Fault Diagnosis

Ship Safety and Emergency Procedures

Team player
