### CAREER OBJECTIVE

As a dedicated and hands-on marine engineering mechanic trained at the Regional Maritime University, I am passionate about working at sea and ensuring the heart of a vessel—the engine—runs smoothly and safely. I take pride in understanding the inner workings of marine engines, solving mechanical issues under pressure, and keeping systems running efficiently. I’m now looking for an opportunity to join a vessel crew where I can grow, contribute meaningfully, and continue learning from experienced engineers while playing my part in keeping the ship moving forward.
