No experience!

Documents and further information:

My Goal

To start a career in the maritime industry as an engine cadet. I aim to gain real experience working with marine engines and machinery and to grow in the profession of a marine engineer.

Education

Currently studying at the A. I. Marinesko Maritime College, specializing in the maintenance and operation of ship engines and machinery.

Work Experience / Internship

I do not yet have practical experience onboard ships. However, during my studies I have participated in simulator and laboratory training, and I am familiar with the basics of operating main and auxiliary engines, as well as machinery space equipment.

Professional Skills and Knowledge

Understanding of marine diesel engine operation

Knowledge of main and auxiliary ship machinery

Ability to work with technical documentation

Basic maintenance and servicing skills

Personal Qualities

Responsible and disciplined

Ready for physical work and watchkeeping duties

Fast learner and not afraid of difficult tasks

Able to handle stress and work effectively as part of a team

Attentive to safety procedures

Additional Information

Ready for long voyages

No bad habits

English level: Intermediate (actively improving)

Why Me?

I am fully committed to pursuing a career as a marine engineer and to working at sea. I am ready to begin this journey from the position of cadet. I understand the responsibilities and hard work ahead — and that is exactly what motivates me. I want to grow professionally and contribute to both the crew and the vessel.
