Professional Objectives Statement

Over the coming years I wish to build upon my successful employment and academic experience in relation to that of an Offshore Medic, Paramedic, Occupational Health Advisor, Search and Rescue Medic, and Charge Nurse. I also believe that I have developed a unique skill set gained from employment in several diverse positions which could be transferred to any new role which would in turn be a major asset to any future employer or project. I was delighted to have been awarded an honorary doctorate in global humanitarian services for my work within humanitarian fields. My aim now is to move towards a career in public health specialising in health disparities and inequalities. Currently I am studying a Masters in Public Health (MPH), Due to complete in 2026, as well as PG Certs in Environmental Health
