Work experience

- Sept 2017 - Jun 2018 **High School Engine Cadet**
İnjegov Marecon Engineering, İstanbul
I completed my high school internship at the specified company between the specified dates. I had the opportunity to gain experience in the workshop environment in terms of main engine, generator, windlass equipment, cargo and ballast pump overhaul works, as well as welding, lathe and cleaning of materials. First in the maritime sector completed my high school internship at the specify.
- Sept 2018 - Sept 2019 **Ship Machines Maintenance Technician**
İnjegov Marecon Engineering, İstanbul
Considering the performance the company expected from me, I gained fundamental experience by overhauling various machines, generators, pumps, and engines on ships in various shipyards, ports, and offshore, a very different experience than my internship. I also acquired basic and superficial tips on what to do and what not to do. This experience enlightened me greatly on how to direct my life, and right after working for a full year, I decided to pursue an academic path in the maritime sector and prepare for the university entrance exams.
