Notes

I am results-oriented, highly motivated, and professional. I fully respect and comply with the Company's Policies and Procedures, with safety being my top daily priority. I am eager to gain extensive experience and knowledge in the operation and maintenance of various types of marine equipment. I enjoy working as part of a professional team, while continuously motivating and training myself to take on leadership roles. I am proficient in using PCs and all relevant software, including computer-based maintenance systems such as TM Master, ShipNet, and BassNet. I have solid experience in operating various integrated control systems, including KONGSBERG DP K-Pos Maintenance. I am open-minded and responsible, actively participate in social activities, and maintain a proper balance between work and rest. I easily build relationships and communicate effectively with people from different nationalities and cultural backgrounds, demonstrating high tolerance and discipline. I am also interested in technical innovations and continuous improvement. My technical experience covers a wide range of offshore equipment and systems, including: Diesel-electric power plant vessels with azimuth thrusters and CPP (controllable pitch propellers), including combination types. Operation, maintenance, and repair of main engines such as Caterpillar 32–36C, Cummins KTA50, Wärtsilä 8R22H, 9L20, 9L26, GM-EMD 20-710 G7B, Baudouin 12V26RS. Thrusters: Bow, Stern, and Compass – Brunvoll, ABB. Steering gear: Rolls-Royce. Compressors: LMF, Ariel Ohao, Rolland, Ingersoll-Rand M350-2C. Automation and power systems: ULSTEIN IAS, Wärtsilä LLC (Low Loss Concept) machinery setup. Exhaust gas treatment system: D-NOX H+H for emission reduction.
