About you: Renat Stepanov

I have completed 4 years of maritime studies, graduating this year as a **Watchkeeping Engineer on ships with a main engine power of less than 3000 kW (Fourth Level Professional Qualification)**. I am about to start my **third contract**. During my previous contracts, I gained hands-on experience as an **Engine Cadet, Wiper and 3 weeks like Oiler**, including bunkering, oil intake, sludge discharge, cleaning HFO filters, daily filter changes in separators and the main engine, assisting in dry dock operations, painting works, and participating in main engine start-ups. I am friendly, hardworking, goal-oriented, skilled at teamwork, and highly motivated to work on ships. Date available For Joining: 20.10.2025
