### Notes

Good day! I would like briefly introduce myself. I have a shiny experience with major engines overhauls. I have passed flags, maritime register, PSC, USCG, and AMSA inspections without any issues. I have a good level of English. Next year, I will graduate till the Chief Engineer COC. I have received many promotions and have good appraisal records. Good understanding and maintaining PMS and paper works, additional computer's skills. My focus on the learning of manufacturer's manuals instructions before doing any jobs to prevent any incorrect actions and paying high attention to the safety procedures. The same i required from officers and ratings crew. I have ~18 month in the 2nd engineer rank. "Management" licence for oil tankers available and "Operational" for chemical tankers. Im ready to decrease my rank till 3rd engineer for start work on the tankers and for refresh my knowledge about it, with the target for future promotion. Thank you for your consideration.
