Additional information

I would like to express my interest in available positions within Oil/Chemical Tanker fleets, as well as Offshore vessels. I am open to contracts worldwide and flexible regarding the trading area.

Experienced with main engines MAN, Wartsila, MAK (overhauls, troubleshooting, routine maintenance).

- Worked with auxiliary engines: Daihatsu, Volvo Penta, Himsen, Yanmar – including:
 - cylinder head overhauls
 - injector service
 - fuel pumps , fuel injectors and calibration
 - cleaning coolers and heat exchangers
- Skilled with boilers: thermal oil boilers, exhaust gas boilers, auxiliary boilers (alarm checks, burner maintenance).
- Strong experience with purifiers: Alfa Laval, Westfalia, Mitsubishi (FO/LO).
- Worked with Framo hydraulic power packs (routine maintenance, filter changes, pressure checks, troubleshooting support).
- Independent engine room watchkeeping (UMS/non-UMS), alarm response, machinery operation and reporting.
- Experience with cooling water systems, lub-oil systems, plate coolers, heat exchangers, pumps and valves.
- Basic automation troubleshooting on boilers and auxiliary engines (alarms, safety trips); electrical issues referred to ETO.
- Confident with PMS: ShipManager / ShipSure .
- Good knowledge of Fuel Oil / LSMGO / VLSFO systems, viscosity control, mixing, fuel change-over procedures.
- Familiar with PTW system (hot work, enclosed space entry, LO/TO and machinery isolation).
- Documentation: engine logbooks, maintenance records, defects input, spare part requests.

I am ready to join your team and contribute to safe, efficient, and reliable vessel operations. Thank you for considering my application. I look forward to the opportunity to discuss potential employment.
