COVER LETTER

Dear Recruiting Team,

I would like to give you a brief overview of my skills, experience and present myself.

Seasoned Third Engineer DPM with over four years of experience in Offshore Engineering, specializing in Offshore operations, including Cable-Laying, AHTS, PSV, and Vessel Safety management. Expert in a broad range of mechanical skills, encompassing major engine and

deck equipment repairs, modern control and automation systems, and a commitment to operation excellence and international marine standards.

Career highlights include leading complex overhauls of Wartsila, Niigata Engines and Kongsberg DP2 systems Maintenance, managing environmental initiatives on clean design vessels, and steering diverse multinational teams in high-pressure environments. Known for effective communication and the ability to find common ground in mixed crew settings, ensuring successful offshore operations.

Safety Management and Regulatory Compliance: Committed to safety and environmental stewardship, excelling in implementing safety protocols and emergency response strategies. Conducts rigorous inspections and audits to ensure all operations meet the highest standards of safety and efficiency.

Technical Proficiency in Maritime Systems: Hands-on experience with modern maritime systems, including control and automation systems, high voltage systems, and refrigeration units. Adapts quickly to new technologies and complex challenges for smooth vessel operations.

Mechanical Maintenance: Adept in leading mechanical operations in offshore environments, skilled in propulsion systems overhauls, and dynamic positioning systems maintenance, ensuring peak performance and reliability of all machinery.

Adaptive Expertise in Global Offshore Operations: Extensive experience in various offshore projects, adapting to different operational demands and environments. Committed to learning and professional growth, ready to tackle the challenges of modern maritime projects.

Environmental Systems Management: Managed vessel's environmental systems, including Oil Water Separator (OWS) with a 5ppm alarm setting. Regular maintenance and repair of OWS and Incinerator systems, ensuring optimal performance and reliability. Operated and maintained onboard sludge and bilge water recycling systems, including sludge burning using an Incinerator.

Eager to transition into roles such as Third Engineer / Mechanic on advanced offshore projects, particularly in drilling platforms or large construction vessels. Well-suited for challenging positions involving modern and sophisticated marine equipment, with a strong background in safety, incident response, and methodical problem-solving.

I am enthusiastic about the prospects of integrating into the vibrant offshore community, bringing not just my technical expertise but also a rich family legacy in the maritime world. It would be a privilege to further discuss how my background and aspirations align with the vision of your organization.

Thank you for considering my application

Yours faithfully,

Third Engineer

M: +380 (63) 202 28 59
