COVER LETTER

I would be very grateful if you consider me person as a candidate for the position of Chief Engineer of your good company. I am an astute, highly motivated and safety focused Chief Engineer with over 40 month proven experience in a tanker fleet. And 16 years in rank like 2nd, 3rd, 4th Engineer. At 2003, I have graduated in University, Kaliningrad, Russian Federation for getting degree of Engineer of Marine industries.

About myself:

I am really known what I am want and strictly follow my own targets, every time improve my personal skills. In short time, can familiar with any new equipment or QSE system. Have clear report of PSC, USCG, Vetting inspection. I also have experience in dry dock. Always keep in perfect condition all my documents and papers onboard. Strictly follow all company's procedures.

Like a team leader, I do not afraid of difficult and can easy to find common language with different ethnic and religious groups.

I can easily master the unfamiliar equipment, software and machines for get new experience.

I also strive to improve skills using a variety of technical literature, programs and courses

My positive references and recommendation from previous companies can be provided, if necessary. I wish to place my experience at your disposal. I strongly believe that my knowledge and skills can quite beneficial to your company.

I would be interested in meeting with you to discuss further the possibility of my joining to you and get to know your requirements and looking forward to hear from you soon

Summery:

I am passionate about my role and the parts I play in high performance maritime team and work hard to inspire the same passion in other. With a sharply analytical and systematic thinking process and a proven talent for problem solving; I add value to all the positions and teams I have worked with.

I demand high standards of myself, and enjoy mentoring and coaching other to do the same. My process focuses and specialist skills have enabled me to enforce and enhance workplace health and safety including motivating my teams to adopt the highest safety standards and in order to maintain improved safety records. Near enough is never good enough.

My key strengths lie in leadership, innovating to face new challenges, risk analysis and mitigation, combined with in depth knowledge and experience in a variety of areas

Best Regards

Ch.Eng S.Rybachok
